Subject: BG12 Feasibility Update

Hi Gilmore,

It's Sat AM and I have not received an "updated" report from ePL, where they were to correct some "missing" data (the 10 "blanks"). However, I have revised the summary of the feasibility data I showed you to include the breakdown of the "No" responses to conducting the various study designs with the associated comments. You will find this on the third tab of the spreadsheet labeled "No-Response".
