Subject: Information Update - There are multiple changes: BG12 MS MOCK regulatory authority meeting (rehearsal)

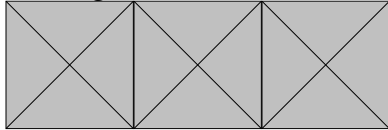

Dear All,

The BG12 MS team are preparing for scientific advice meetings (National meetings are planned with Sweden, Netherlands and UK). In order to facilitate the preparation for these meetings the team would value a practice mock Agency meeting with senior management taking on the role of the Agency

I would therefore value your input at this meeting, although I appreciate that this timeslot will not be suitable for everyone

Gilmore will present for 15 minutes and then the panel will have the opportunity to ask him and the rest of the team questions relating to the BG12 MS development plan.

By way of background please find attached a copy of the planned Agency questions and the briefing document

Room 621 is booked in Cambridge and Dorney in the UK

Please use the following dial-in details

Int: (706) 758-0773

US: (866) 309-3684

Conference code: 8512592

Leader pin (An lie / Adam): 2592

Best regards
