**JOINT CLAIM CONSTRUCTION AND PREHEARING STATEMENT**

---

TO THE HONORABLE COURT:

In accordance with the Scheduling Order ¶ 4(d) (Dkt No. 93) and Amended Miscellaneous Order No. 62, § 4-3, Plaintiff Summit 6 LLC (“Summit 6”) and Defendants HTC Corporation, HTC America, Inc., LG Electronics, Inc., LG Electronics USA, Inc., LG Electronics MobileComm USA, Inc., Motorola Mobility LLC, Apple Inc.,

and Twitter Inc. (collectively “Defendants”) file this Joint Claim Construction and Prehearing Statement.

**I. Terms Proposed for Construction on Which the Parties Agree**

The parties agree on the construction of the following claim terms:

Claim Term or Phrase and Relevant Claims	Agreed Construction
pre-processing parameters  <i>'557: Claims 45, 60</i>  <i>'482: Claims 1, 9, 12, 13, 16, 17, 18, 22, 25-27, 30, 34-38, 51</i>  <i>'515: Claims 1, 7, 20-25, 39-41, 50, 52</i>	values directing the pre-processing
displaying a preview image of said selected digital content  <i>'482: Claim 35</i>	displaying a preview image of the digital content after the digital content has been selected
displaying a thumbnail preview of said identified . . . files  <i>'515: Claims 6, 28</i>	displaying a thumbnail preview of the file(s) after the file(s) have been identified
displaying thumbnail previews of . . . files  <i>'515: Claims 51, 53</i>	displaying thumbnail previews of the files after the files have been identified
publishing/publication  <i>'482: Claims 1, 9, 13, 22, 35, 36, 38, 51</i>	making publicly available/the act of making publicly available
third party website  <i>'557: Claims 1, 12, 13, 28, 35, 36</i>	a website being operated by a party other than: (1) the user, or (2) the party which provided the operator of the website with the code used to include the media object identifier on the website
placement of . . . digital content into a specified form  to place . . . digital content in a specified form  <i>'482: Claims 1, 9, 13, 22, 35-38, 51</i>	modifying the digital content data to meet certain specifications
information that enables identification of	information related to a person that enables

a user  user identifier  information associated with an individual  information retrieved by said client device that enables identification of a user  <i>'482: Claims 13, 19, 25, 37</i>  <i>'515: Claims 17, 36</i>	identification of that person
user information  <i>'482: Claim 49</i>	information related to a person

**II. Each Party’s Proposed Claim Constructions and Supporting Evidence**

A side-by-side comparison of the parties’ respective proposed constructions, an identification of the party/parties proposing the construction, and an identification of the intrinsic and extrinsic evidence that they intend to rely upon, either to support their proposed construction of the claim terms or to oppose another party’s proposed construction, are provided in Exhibit A. The ’557, ’482, and ’515 patents share a largely identical written description; therefore citations made to one of the patents are intended to refer to the corresponding portions from all patents-in-suit. The parties also reserve the right to rely on evidence cited by the opposing party to support or oppose particular constructions as appropriate.

In addition to the extrinsic evidence identified in Exhibit A, the parties anticipate that they may rely also on Markman briefing and the Court’s Markman Order from the previous Summit 6 case (3:11-cv-00367), as well as any potential future Federal Circuit ruling(s) of matters on appeal in the previous Summit 6 case. With respect to expert testimony, Summit 6 seeks the option of supporting its Markman briefing in this case

with the expert testimony of Dr. Mark Jones, the expert from the previous Summit 6 case. Summit 6 has made Defendants aware of Dr. Jones's prior deposition and expert testimony, as well as its desire to have the option of filing an expert declaration by Dr. Jones to oppose Defendants' indefiniteness arguments if Defendants oppose the use of his prior deposition and trial testimony. Summit 6 believes such a declaration is appropriate and permissible under Amended Miscellaneous Order No. 62, § 4-2(b). Defendants object to Summit 6's use of Dr. Jones' testimony for Markman on the grounds that Defendants here were not parties to the previous Summit 6 case, and therefore never had an opportunity to depose or cross-examine Dr. Jones on that testimony. Defendants also object on the ground that claim construction discovery will be closed (Nov. 17, 2014) before Markman briefing commences (Dec. 30, 2014), and Summit 6's proposed production of expert declarations would not take place until after the close of claim construction discovery, thereby denying Defendants the ability to depose Summit 6's expert on the subjects of his declaration testimony. With respect to Summit 6's reliance on Amended Miscellaneous Order No. 62, § 4-2(b), Defendants further object on the grounds that, on the required disclosure date (Oct. 9, 2014), Summit 6 identified volumes of testimony from Dr. Jones without reference to what testimony would be used to support what proposed construction, and Summit 6 failed to provide the description of the substance of Dr. Jones' proposed testimony that the Order requires.

### **III. Length of Claim Construction Hearing**

Should the Court find a hearing beneficial, the parties anticipate that three hours will be sufficient with this time to be divided equally between the two sides.

### **IV. Witness and/or Expert Testimony**

None of the parties intend to call any witnesses at the claim construction hearing.

**V. Issues for the Pre-Hearing Conference**

The parties do not currently have any issues that need to be taken up with the Court at a pre-hearing conference.

Dated: October 16, 2014

Respectfully submitted,

**McKool Smith P.C.**

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
