Are you currently affiliated 24 with the University of Colorado?

Page 9 Page 10 1 Q. In what capacity? 1 I'm thinking 2005. Α. 2 Α. As an adjunct associate 2 Q. So about ten years? 3 3 A. Yeah. professor. 4 4 Q. And over those ten years, how Do you teach courses in that Q. many semesters have you taught courses as 5 capacity? opposed to not taught courses at the 6 I still do from Southern 6 Α. California. 7 7 university? 8 8 Q. Are you teaching one this Α. I think probably four or five 9 9 I've taught. semester? 10 10 Taught about four or five Α. Not now. Q. 11 courses in the past ten years? 11 Q. Did you teach one last semester? 12 A. Yes. 12 Α. 13 You mentioned satellite 13 Q. What course was that? Q. 14 communications. 14 Α. Satellite communications. 15 Q. Did you say adjunct professor? 15 Α. Yes. 16 Α. Yes. 16 Q. Do you remember the other 17 And did you previously have 17 courses you've taught over the past ten Q. 18 other titles at the university? 18 vears? 19 Yes, I was a full-time associate 19 Α. Yeah, wireless area -- local 20 professor for a couple of -- three years. 20 area networks and cellular networks. And 21 When did you become adjunct? also some more elementary courses. 22 A. When I left -- when I left the 22 Q. **Telemetry courses?** 23 A. Elementary. 23 position and became a full-time consultant. Time-wise, when was that? How 24 Q. Elementary. Excuse me. I've 24 25 long ago was that? 25 got M2M on the brain. Page 11 Page 12 be different. You text in English to other 1 Are any of those courses that people and in machine-ish to other machines. 2 you've taught, for example, over the past ten 3 years ones that are relevant to the subject 3 Q. Machine is, for example, AT 4 matter of the patent we'll be talking about 4 commands? 5 Α. Yes. 5 today? 6 6 Α. Yes. Q. So the contents of the message might be different, but otherwise, the SMS 7 Q. Which ones? protocol is the same? 8 8 Α. The cellular communications 9 Α. The principle's the same. 9 ones. 10 Q. You have a number of patents? Any other ones that you can 10 11 think of that you mentioned? 11 Α. I have two patents. Q. That's by far the most relevant. 12 Do those discuss 12 13 Do you specifically discuss 13 machine-to-machine communications? Q. 14 machine-to-machine communications in that 14 They discuss CDMA 15 course? 15 communications. 16 Not explicitly. Q. **CDMA communications?** 16 Α. 17 What's the connection then? Α. Correct. 17 Q. 18 Α. Well, cellular communications is 18 Q. Is there anything specific in those two machine-to-machine communications? 19 19 the same whether it's machine to machine or 20 person to person. After all, most cellular 20 Α. Not specific, no. 21 Have you published any papers 21 communications today is -- is text messaging. 22 Right. So text messaging on a 22 that relate to machine-to-machine 23 phone same as text messaging with a 23 communications? 24 machine-to-machine device? 24 Α. No. Yes, except the language would 25 Q. Have your patents been licensed?

	Page 13		Page 14
1	A. Yes, they were.	1	unclarity by what I meant by
2	Q. To whom?	2	"machine-to-machine device," let me know.
3	A. I think the company was Micro	3	A. Yes, there was one project that
4	Electronics. It was a chip manufacturer.	4	I worked on that was, believe it or not, a
5	Q. Do you recall whether you got	5	dog collar which monitored the location of
6	royalties for licensing your patents?	6	the dog and informed the owner if it drifted
7	A. It was an outright sale.	7	away.
8	Q. Okay. You sold the patents?	8	Q. Did it have a GPS?
9	A. Yes.	9	A. It did.
10	Q. Do you recall the amount?	10	Q. When was this project?
11	MR. HENSCHKE: Can I interject	11	A. Oh, gosh. Five, six years ago.
12	· · · · · · · · · · · · · · · · · · ·	12	Q. Do you recall what communication
13	•	13	module you used in the dog collar?
14	licenses are confidential in any way	14	A. No.
15		15	Q. Did you program that yourself?
16	, ,	16	A. No. No, I designed it as an
17	mind.	17	exercise in estimating the cost of entering
18		18	the market.
19		19	Q. I see.
20		20	Was that for a client?
21	A. I don't; but in any case, I	21	A. It was for Pfizer Animal Health.
22	· · · · · · · · · · · · · · · · · · ·	22	Q. Who programmed the
23	•	23	machine-to-machine communications module in
24		24	that instance?
25	machine-to-machine device? If there's any	25	A. Well, once I had completed the
	•		,
1	Page 15 conceptual design, it went off to Pfizer and	1	Page 16 '70s?
	•		
2	I novor cow it again		
2	I never saw it again.	2	A. Sure.
3	Q. So you didn't actually program	3	Q. What did you use AT commands for
3 4	Q. So you didn't actually program the device?	3 4	Q. What did you use AT commands for in connection with modems?
3 4 5	Q. So you didn't actually program the device? A. No.	3 4 5	Q. What did you use AT commands for in connection with modems?A. Usually in setting up,
3 4 5 6	Q. So you didn't actually program the device? A. No. Q. Before your involvement in this	3 4 5 6	Q. What did you use AT commands for in connection with modems? A. Usually in setting up, configuring modems for data links.

DOCKET

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
