990 Marsh Road
Menlo Park, California 94025-1949
(650) 752-1712

1   P R O C E E D I N G S

2   (10:01 a.m.)

3   JUDGE BOUDREAU: Good morning. This is the

4   oral hearing in case IPR2016-00159, captioned Palo Alto

5   Networks, Incorporated versus Finjan, Incorporated, to which

6   IPR2016-01174, captioned Blue Coat Systems, Incorporated

7   versus Finjan, Incorporated has been joined.

8   I'm Judge Boudreau. We're joined on the video

9   screen from Virginia by Judges Yang and McShane. We seem

10   to have some additional interference here from Virginia.

11   JUDGE YANG: No, Judge Boudreau. It's not from

12   us. We're very quiet here.

13   JUDGE BOUDREAU: Okay. It seems to have

14   stopped.

15   All right. Anyway, because of the limitations on

16   our audio technology Judges Yang and McShane will only be

17   able to hear you if you're standing at the podium speaking into

18   the microphone. So we ask that anytime you're speaking you

19   remain at the podium.

20   Let's have counsel come up and enter an

21   appearance and state your names for the record. We'll start

22   with counsel for the Petitioner.

1   MR. ARMON: Good morning. Orion Armon, lead

2   counsel for Petitioner Palo Alto Networks. And I have my

3   colleague Mikaela Stone with me, and Michael Skrzypek here

4   as our trial tech sitting next to me at counsel table.

5   JUDGE BOUDREAU: And for Patent Owner?

6   MR. HANNAH: Good morning, Your Honor. Nice

7   to see you in person instead of over a video screen.

8   Good morning, Your Honors. James Hannah on

9   behalf of Finjan and with me is Hien Lien.

10   JUDGE BOUDREAU: Thank you.

11   MR. HANNAH: Thanks.

12   JUDGE BOUDREAU: We set out the procedure for

13   today's hearing in the Hearing Order, which was Paper 46, but

14   I'll just take a few minutes to remind everyone. Petitioner and

15   Patent Owner will each have 30 minutes to present arguments.

16   Petitioner will go first and present its case regarding the

17   challenged claims and may reserve time for rebuttal. Patent

18   Owner will then respond to Petitioner's presentation.

19   Petitioner will then have the opportunity to use any reserved

20   rebuttal time to respond to Patent Owner's arguments.

21   The parties may also discuss their respective

22   motions to exclude evidence, and in Patent Owner's case, its

1   Motion for Observations on Cross Examination, during their

2   initially allotted time.

3   And if you do bring up any of those motions during

4   your initial presentation, then the other party will have the

5   opportunity to respond during its response or rebuttal time.

6   Just a few other points. Keep in mind that Judges

7   Yang and McShane won't be able to see the screen over there.

8   So anytime that you're referring to any demonstratives or

9   papers in the case, please make sure that you identify them by

10   the exhibit number or the page number of the demonstratives

11   just so that the record is clear for the transcript as well as for

12   Judges Yang and McShane's benefit.

13   Lastly, just as a common courtesy, if you believe

14   that the other party is making a new argument that wasn't

15   presented in the briefs or if you have any our objections, we

16   just ask that you reserve them until the end or until your

17   presentation, rather than interrupting.

18   With that, unless there are any questions from any

19   of the parties, we may proceed.

20   And Mr. Armon, just before you begin, would you

21   like to reserve any of your time for rebuttal?

22   MR. ARMON: I'd like to reserve ten minutes for

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.

fastcase
Smarter legal research.
