DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action or the MPEP.

Claim Rejections - 35 USC § 112

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is confusing because there is insufficient antecedent basis for "said NSAID" in part b) of the claim. It appears that applicant intended to write "said naproxen" and the claim will be examined with this interpretation in mind.

Claim Rejections - 35 USC § 103

Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Plachetka, US 5,872,145 in view of Swintosky, US 2,951,792. Plachetka discloses the migraine combination naproxen and triptan in the amounts claimed. Plachetka does not disclose separating the ingredients into different layers. Swintosky is cited to exemplify that the concept of separating tablet ingredients into various layers to control delivery rates, prevent interference between the two compounds, etc., is notoriously old. Accordingly, it would be obvious to one of ordinary skill in the art at the time the Plachetka invention was made to separate the naproxen and triptan medicaments into different layers if a better delivery rate could be achieved in that matter. Note is made
