## Official Journal of the European Federation for Pharmaceutical Sciences

# EUROPEAN JOURNAL OF PHARMACEUTICAL SCIENCES

incorporating *Acta Pharmaceutica Nordica* and *Acta Pharmaceutica Fennica*

**Aims and Scope:** The *European Journal of Pharmaceutical Sciences* is the official new journal of the European Federation for Pharmaceutical Sciences (EUFEPS), into which the existing journals *Acta Pharmaceutica Nordica* and *Acta Pharmaceutica Fennica* have been integrated. The aim of the Journal is to increase the impact of research in the pharmaceutical sciences internationally both in academia and industry. With strong emphasis on quality and originality, it publishes reports in this multidisciplinary field, ranging through drug (bio) analysis, medicinal chemistry and drug delivery, biomedical drug research as in drug targeting, pharmacokinetics, pharmacodynamics, drug metabolism and toxicology, as well as pharmaceutical biotechnology. The journal will contain research reports (both full papers and short papers), rapid papers, short reviews and a "Trends in Pharmaceutical Sciences" section. Rapid papers will only be accepted if they contain major new findings that lead to new concepts or strategies in drug research; their length is limited to 3 printed pages (including figures, tables and references). Submission of short reviews and contributions to the "Trends in Pharmaceutical Sciences" section will usually be by invitation only. Proceedings of scientific meetings may be published as supplements for the Journal. Manuscripts submitted to the Journal are only accepted on the understanding that (a) they are subject to editorial review (generally by two independent referees); (b) they have not been, and will not be, published in whole or in part in any other journal; (c) the recommendations with respect to research with human subjects from the Declaration of Helsinki, and the internationally accepted principles in the care and use of experimental animals, have been adhered to.

## Editors-in-Chief

Hans E. Junginger and Gerard J. Mulder, Center for Bio-Pharmaceutical Sciences, The Sylvius Laboratory, P.O. Box 9503, 2300 RA Leiden, The Netherlands; Tel.: (+31-71) 276275, Fax: (+31-71) 276292.

## Section Editors

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.
