Dear Dr. Harris:

Thank you very much for your letter of September 15, 1997, regarding ADD 234037, a novel antiepileptic drug with neuroprotective properties.

Our business development staff has reviewed the data presented. While they found the information to be very interesting, it unfortunately does not fit within our current strategic focus.

I would like to thank you for thinking of Fujisawa USA and wish you success with your efforts to license this product.

Sincerely,

B. Richard Vogt, Ph.D.
