DETAILED ACTION

Double Patenting

1. Claims 4-5, 7-9, 10-26, 28-40, 43-49 and 51-55 of this application conflict with claims 63-64, 66-68, 71-87, 89-101, 105-111 and 113-117 of Application No. 12/500,968. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

3. Claims 4-5, 7-9, 10-26, 28-40, 43-49 and 51-55 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 63-64, 66-68, 71-87, 89-101, 105-111 and 113-117 of copending Application No. 12/500,968. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Claims 4-5 of the present application are respectively met by claims 63-64 of the copending application.

Art Unit: 2629

Claims 7-9 of the present application are respectively met by claims 66-68 of the copending application.

Claims 10-26 of the present application are respectively met by claims 71-87 of the copending application.

Claims 28-40 of the present application are respectively met by claims 89-101 of the copending application.

Claims 43-49 of the present application are respectively met by claims 105-111 of the copending application.

Claims 51-55 of the present application are respectively met by claims 113-117 of the copending application.

Allowable Subject Matter

4. Claims 6, 27, 41-42 and 50 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
