(57) **ABSTRACT**

A confectionery product comprises a pressed tablet made from a compressible composition and having at least one abrasive surface suitable for cleaning the surface of a human tongue in an oral cavity. Typically the product has a first side and a second side generally opposite to the first side; the second side comprising an abrasive surface that is suitable for scrubbing the top surface of the tongue. In some embodiments, the first side is smooth, and may be domed shaped and generally fit the roof of the mouth. The abrasive surface may be provided by 1) a formed, uneven surface, 2) by including abrasive inclusions in the composition making up the second surface, or 3) a combination of a formed, uneven surface and abrasive inclusions.
