RESPONSE

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Office Action mailed October 3, 1997,
please consider the following remarks regarding the above-captioned
patent application.

REMARKS

The presently claimed invention concerns a semiconductor
structure comprising a silicon substrate having a top surface, a
diffusion region formed in said substrate adjacent to said top

surface, a polysilicon gate formed on the top surface of the substrate juxtaposed to but not contacting said diffusion region, a sidewall spacer adjacent to the polysilicon gate and disposed above the diffusion region, an insulator layer substantially covering the polysilicon gate and the diffusion region, and a conducting plug at least partially filling a via in said insulation layer that exposes the sidewall spacer in the absence of the conducting plug. The conducting plug provides direct electrical communication between the polysilicon gate and the diffusion region.

Rejection Under 35 U.S.C. § 102(e)

The rejection of claims 3-6, 9-14 and 16-17 under 35 U.S.C. § 102(e) as being anticipated by Sugiyama U.S. Patent No. 5,600,170 is respectfully traversed.

As evidenced by the attached Declaration (the executed version of which will be filed at the earliest opportunity) the present invention was conceived prior to the filing date of Sugiyama. Therefore, this ground of rejection is unsustainable, and should be withdrawn.

REJECTIONS UNDER 35 U.S.C. 103

The rejection of Claims 2, 8 and 15 under 35 U.S.C. § 103(a) as being unpatentable over Sugiyama et al. in view of Jones, Jr. (U.S. Patent No. 5,313,089) has been obviated in view of the attached Declaration under 37 C.F.R. 1.131 and should be withdrawn.

Jones alone does not render the presently pending claims 2, 8 and 15 obvious. Jones discloses a capacitor and memory cell formed therefrom. Nothing disclosed by Jones describes or suggests the via recited in the present claims. Therefore this ground of rejection should be withdrawn.

Accordingly, the present application is in condition for allowance. Early and favorable action by the Examiner is respectfully solicited.
