3DVU's Mobile Navigation Best Seller on Sprint's Shop

Navi2Go the real 3D picture mobile navigation by 3DVU is Best Seller on Sprint's Shop, Travel section (<http://softwarestore.sprint.com>). In only 45 days after product launch, Navi2Go is receiving great response from consumers.

On April 1, 2008 3DVU announced its partnership with leading distribution channels, Handmark, Motricity, MobiHand and Handango. These companies have made way for Navi2Go US on Mobile Operator shops such as Alltel, Verizon and Sprint. Navi2Go US is now available for \$9.99 a month and listed as Most Popular under Handmark's Windows Mobile Pocket PC as well as Windows Mobile Smartphone software. Navi2Go is Best Seller under Travel-GPS section on OnlyMotoQ and EverythingQ. It is featured as Premier Listing on ClassicPocketGear's homepage and appears in Application Spotlight on Smartphone.net.

"We are very pleased with the major success Navi2Go has achieved in such a short time, indicating the popularity of 3D navigation. We plan on pushing even further to ensure we are the number one choice by consumers for mobile navigation." said Isaac Levanon 3DVU's Chairman and CEO.

Navi2Go is a patented mobile application, providing 3D picture for navigation on mobile handsets. Users can travel over the entire US and UK at high resolution aerial imagery coupled with high-precision terrain elevation in a 3D bird-eye-view. Navi2Go

eliminates exit misses and prevents getting lost. Accurate voice guidance and newly introduced 3D route guidance over 3D virtual world representation makes Navi2Go the most intuitive, friendly and easy to-get-there navigation solution. A public demo is available at, m.navi2go.com on mobile phone's internet browser.

Navi2Go UK is being offered by Orange's shop and is currently under discussion with major European Mobile Operators for the pre-installation of Navi2Go on selected devices. In addition, 3DVU is partnering with mobile device makers as well.

About 3DVU

3DVU is the world's leading provider of 3D Image Navigation and Location Services. Satellite and aerial imagery, as well as mapping data, can now be streamed over limited-bandwidth communications with realistic 3D views and smooth maneuverability. The company is strategically partnered with carmakers, navigation systems, mobile device and handset developers, major satellite and aerial image-sensing entities, mapping and GIS data providers. 3DVU is the winner of Frost & Sullivan's Europe Telematics and Infotainment Technology of the Year Award in 2007. The company has multiple software patents. For more information, visit www.3dву.com (<http://www.3dву.com>).
