**Conclusion:** The \$500B worldwide pharmaceutical industry is positioned to deliver mid single-digit growth supported by promising R&D pipelines. This comprehensive study forecasts trends in the major therapeutic drug categories through 2010. Each category is defined by therapeutic need, market size, growth outlook, major new compounds in development, and an assessment of individual company prospects. The companies predicted to lead in “Market Share”, “Market Share Gain”, “Market Share Loss”, “Total Therapeutic Positions”, and “Leading Therapeutic Positions” are detailed below.
