3. Based on my experience performing my ordinary job duties at GPC, as well as records GPC maintains in the ordinary course of its business that I am personally familiar with through my ordinary job duties, I have personal knowledge of the statements below.
4. GPC's Library includes old copies of the Composite Catalog, including the first edition, published in 1929, and each edition published since then, including the 21st edition published in 1955. The last edition of the Composite Catalog is the

45th edition published in 2002. A true and correct copy of the cover and certain pages from Volume 2 of the 21st edition of the Composite Catalog in the Library, which includes pages from the Lane-Wells Catalog contained within it, are attached as Appendix A. In the year 2000, any member of the public who wanted to view old copies of the Composite Catalog, including the 21st edition, could make an appointment with our Houston office to visit the Library and review what was in it. They would have been free to request copies of the materials we kept there, and we would have made those copies for them for a fee of a few dollars per page.

5. The Library includes a catalog of index cards that show some of the years that certain companies purchased publication space within the Composite Catalog. True and correct copies of the front and back of the index card for the Lane-Wells company are attached as Appendix B. This appendix shows that the Lane-Wells company purchased 20 pages for its catalog that went in the 21st edition. Visitors to the Library in 2000 had access to this catalog.

6. The Composite Catalog is and was a compilation of product catalogs from different companies. GPC sold companies the right to include their catalog pages within the Composite Catalog, and GPC sold the Composite Catalog, including the 21st edition, to members of the public. True and correct copies of the order form for companies to purchase publishing space in the 21st and/or 22nd editions of the Composite Catalog are attached as Appendix C.

7. I declare under penalty of perjury that the foregoing is true and correct.
