RIM BlackBerry Curve Review

Submitted by [JerryJ](#) on Friday, June 22, 2007

[Email](#)  [Discuss \(1 replies\)](#)  [Print](#) 

5

Research In Motion's new BlackBerry Curve, also called the 8300, is a response to the surge of new multimedia smartphones that are becoming commonplace as more people listen to music, watch videos, browse the Web, and check email from their mobile devices.

I took a look at this cellular-wireless handheld to see how it stacks up against the competition.

This device is available in several carrier versions. The model I tested was the BlackBerry 8300 on AT&T U.S.A.

Design & Construction

The Curve uses the newer generation BlackBerry form factor: it's still a relatively thin yet broad device with a large screen, but (as with the Pearl and the 8800) the Curve now uses a center-mounted trackball for menu navigation and selection rather than the traditional three-way joystick.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
