Mr. O'Brien –

The PDF review package files were created by CDER/DIDP (FOI) on 2/20/2003. That information comes from the PDF metadata. Those documents were provided to my web team on or after that date. Since there is a backlog of items to be posted, as well as some processing time to create a linked review package, the documents were not uploaded until 3/7/2003. Both our administrative module and our file dates indicate that the files were posted on 3/7/2003. I have no records or reason to believe that the PDFs have been modified since our original posting date.

Thanks for your inquiry,

Paul Buckman
Director, Division of Online Communications
Center for Drug Evaluation and Research
U.S. Food & Drug Administration

Subject: FDA Webmaster inquiry

Hi,

I am writing to inquire about the "Date created: March 07, 2003" tag on the following webpage:
http://www.accessdata.fda.gov/drugsatfda_docs/nda/2002/21-436_Abilify.cfm

We contacted a Drug Information Specialist who stated the following: "[T]he metadata on all PDF files in the review package are consistent, and haven't changed since 2/20/2003. Our administrative module indicates that the review package was uploaded on 3/7/2003, which is consistent with the date found on the bottom of the webpage."

I would like to confirm this with someone directly involved in the web team, and I found your contact information online. Can I please have you confirm that the above statement is correct, that the webpage above has not changed since March 07, 2003, including that the "Approval Letter(s)" and "Printed Labeling" pdf's have been accessible online in their current form since March 07, 2003? Or can you please redirect me to someone who might better be able to handle this type of inquiry?

Thank you,

Timothy J. O'Brien
