At the top of the search results is the search header information. Moving from left to right, the first item displayed is the page title (RED BOOK Online® Search Results). Adjacent to the title is the Modify Search button.

Click the Modify Search button to return to the RED BOOK Online search tool and modify your search or perform a new search either by typing in a new search term or by changing your filter options.

Search results can be exported to a Microsoft® Excel® (.xls) file, or a Comma Separated Values (.csv) file. Select the file type that you want to save the results as from the drop-down menu. A dialog box appears that provides the ability to select the location to which you want to save the file.

On the right side of the screen is the Print icon . Clicking the Print icon launches the Windows® Print dialog window and allows you to print your RED BOOK Online search results.

Displayed in the blue bar directly beneath the RED BOOK Online® Search Results title is identification information about the search performed. In the example shown above, the identification information displays that a search was performed by Product

Also displayed are any filters that were applied to this search. In the example shown above, the "Active" filter was applied.

Below the search identification information is the number of results returned for this particular search. In the Ceftriaxone example shown above, 132 results were found and results 1-50 are displayed.

On the right side of the screen, the number of pages within the search result are displayed. For this example, page 1 of 3 is being displayed. When the search results contain multiple pages, you can use the Previous and Next links to page through the search results, or you can enter a page number in the Page box and click GO to move directly to that page of the results.

All columns with headings in blue can be sorted in ascending or descending order. Click on the column heading to sort on the column. The display refreshes based on the sort selection with a secondary sort on product name. Click again to reverse the sort order

The various column headings/items and their function are described in the table below.

Column Name	Description
Details Button	The Details button is related to the checkboxes that correspond to each line item in the search results. Clicking the checkbox for a single or for multiple products and then clicking the Details button launches the Product Details pop-up screen. The Product Details pop-up screen provides detailed information for the product(s) selected.
Price Chg	The Price Chg (price change) column indicates if the selected product has had a price change that is effective within the last 30 days of the date the search was performed. If a price change has occurred within this time window, a dollar sign icon (\$) will display in this column. Hovering the cursor over the icon will display the effective date of the price change. 
New Pkg	The New Pkg column indicates if the product on which you searched is a new entry in the RED BOOK Online database that became effective within the previous 30 days of the date the search was performed. New entries in the database are indicated by a star icon (★) in this column. Hovering the cursor over the icon will display the effective date of the new entry. 
Product Name	The Product Name column displays the name of all the individual products retrieved by your search. You can click the column header to sort the search results by this column.
Active Ingredient	The Active Ingredient column displays the active ingredient(s) for the product for which you searched. You can click the name of the active ingredient to view other products that contain the same active ingredient, strength, form, and route.

	<p>Select this item to see a list of all other drugs with the same active ingredient, form, strength, and route.</p> <p>If a product contains more than one active ingredient and you click the name of the active ingredients link, RED BOOK Online will search for other products containing all of the active ingredients specified. If you want to search for other products that contain just one of the active ingredients listed, return to the search page and perform an active ingredient search on that one item.</p>
Manufacturer/Distributor	The Manufacturer/Distributor column displays the manufacturer/distributor of an individual product in your search results. A single product name can be associated with multiple manufacturers/distributors.
Rpkg	The Rpkg column indicates whether or not the product is repackaged by the company listed as the manufacturer/distributor. A "Y" indicates that the listed manufacturer/distributor is a repackager of the product. An "N" indicates that the listed manufacturer/distributor is not a repackager.
Generic	The Generic column indicates whether or not the particular line item is a generic product. A "Y" indicates that the product is a generic version. An "N" indicates that the product is not a generic product.
Orange Book Code	If a product has a corresponding Orange Book Code , that code will appear in the Orange Book Code column. Not all products will have an associated Orange Book Code. When there is no associated Orange Book Code, two dashes (--) will appear in the column.
Code Type	The Code Type column identifies the registry listed for the identifier, either NDC; HRI; or UPC. This code type is related to the value that appears in the Identifier column.
Identifier	The Identifier column displays the NDC , HRI , or UPC code that is associated with the item for which you searched.
Form	The Form column displays the dosage form (tablet, solution, syrup, etc.) of a product.
Strength	The Strength column displays the active ingredient strength for the product for which you searched.
	The Strength column is limited to 24 characters. Entries in this field that exceed 24 characters are truncated. A longer description can be viewed on the Product Details screen.
Route	The Route column displays the route of administration for the product.
Pkg Size	The Pkg (package) column displays the quantity of individual items in the package. This quantity is expressed in National Council for Prescription Drug Programs (NCPDP) units (each, grams, milliliters).
Unit Dose	The Unit Dose column indicates if the product retrieved in your search is available in unit dose packaging. A "Y" indicates that the product is available in unit dose packaging. An "N" indicates that the product is not available in unit dose packaging.
WAC Pkg Price	The WAC Pkg Price column displays the Wholesale Acquisition Cost of the package.
AWP Pkg Price	The AWP Pkg Price column displays the Average Wholesale Price per package.
AWP Unit Price	The AWP Unit Price column displays the Average Wholesale Price per unit. For information on how unit prices are calculated, see the corresponding help topic.

NOTE: The default sort order for search results is by the Product name and then Manufacturer columns. If you sort the results by a different column, Product and Manufacturer become the second and third sort criteria.

TIP: Columns for which no data is returned will contain two dashes (--).
