Declaration of David Klausner in Support of
Petition for *Inter Partes* Review of
U.S. Patent No. 9,094,574

I, David Klausner, declare as follows:

I. INTRODUCTION AND QUALIFICATIONS

A. Qualifications and Experience

1. I am currently employed as an independent computer expert and consultant. I have a bachelor's degree in Mathematics, a master of science degree in Electrical Engineering, and over 49 years of professional experience in the areas of computer networking, security and software. During that time, I have worked as a consultant, as an expert, as an engineer, as a software developer, as a manager, as a company executive, and as a forensic investigator.

2. Specific computer-related technologies that I have worked with include networks, network devices such as routers and switches, internet, web technologies (such as servers, clients, messaging, scripts, applets, and applications), protocols, videoconferencing systems, operating systems, computer hardware, source code, and programming languages.

3. In addition, my working experience includes developing software for, among other things, network data communications, business applications, data management, database design, client/server, compilers, parsers, programming languages, user interfaces, quality assurance, real-time applications, artificial intelligence, utility programs, diagnostics, machine simulators, performance

U.S. Patent No. 9,094,574

analyzers, EDI applications, general ledger, inventory control, software auditing, manufacturing processes, insurance, financial, and statistical process control. I have designed and developed, as well as managed and assisted in the design and development of, computer hardware and software systems. Some of my clients have been computer software companies, including Symantec, Adobe, Nortel, Intel Corp., Hewlett-Packard, and IBM.

4. My experience includes decades of software development, consulting and expert testimony experience in many aspects of the computer field, from microcomputers to mainframes, and in all areas of programming. I also have experience as an engineer, developer, supervisor, project manager, department manager, middle manager, and company executive, as well as experience in forensic investigation and reverse engineering.

5. I possess many years of experience designing and implementing messaging systems between user devices. A sampling of my experience in designing, implementing, deploying, and maintaining systems for exchanging messages between user devices is as follows:

6. My early introduction to computer-based messaging occurred from 1967 to 1974, while working at the University Applications Processing Center in Brooklyn, NY. While there, I worked on the deployment and maintenance of

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
