On U.S. Patent No.
8,874,677 B2*

March 5, 2019

UNITED STATES PATENT AND TRADEMARK OFFICE
PATENT TRIAL AND APPEAL BOARD

Petition: Three Disputed Limitations (Claim 6)

6a	A messaging system comprising an access block operatively coupled to a media block wherein,
6b	the access bock is configured to receive an initial message sent by an originating communication device to a destination communication device
6c	the initial message being characterized, at least, by message format, an initial message layout, and data indicative of at least one receiver associated with the initial message,
6d	wherein the initial message includes a video,
6e	the media block is configured to obtain data indicative of displaying capabilities of the destination communication device and enable conversion ... of the initial message into an adapted message,
6f-1	wherein the conversion comprises: providing, by the media block, a clickable icon:
6f-2	i) based on the video from the initial message and
6f-2	ii) [a clickable icon] clickable into an adapted version of the video, wherein the adapted version of the video is adapted to the displaying capabilities of the destination communication device
6g	determining, by the media block, an adapted message layout, comprising the clickable icon; and
6h	the access block is further configured to enable transmitting the adapted message to the destination device associated with the at least one receiver.

Petition Relies On Coulombe In View Of Friedman For Claim Limitation 6f-1

<u>LIMITATION</u>	<u>PETITION</u>
6f-1: “wherein the conversion comprises: providing, by the messaging system, a clickable icon: i) based on the video from the initial message and”	Coulombe in view of Friedman
6f-2: “ii) [a clickable icon] clickable into an adapted version of the video, wherein the adapted version of the video is adapted to the displaying capabilities of the destination communication device	Coulombe in view of Friedman and Bellordre
6g: “b) determining, by the messaging system, an adapted message layout, comprising the clickable icon; and	Coulombe in view of Friedman and Bellordre

Petition Relies On Coulombe In View Of Friedman For Claim Limitation 6f-1

- “Coulombe and Bellordre do not appear to expressly disclose a ‘clickable icon’ but this limitation is supplied by Friedman, which discloses a ‘clickable icon’ in the form of ‘[t]humbnail graphic 525.’” Pet. at 27.
- It would have been obvious to one of ordinary skill in the art in view of Coulombe and Friedman for the thumbnail graphic to be “provid[ed], by the media block.” In operation, “the [Friedman] processing system ... automatically detaches and saves the contents of the [attachment/]object, partially or wholly, without any manual intervention on the part of the message recipient.” Pet. at 21 (emphasis in original).

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
