BROADBAND & MULTIMEDIA STRATEGY & TECHNOLOGY

Executive leadership in industrial and consumer communications systems/networks: Business development, technology/R&D management, technical and strategic marketing, domestic and international markets. Focus on broadband/multimedia system and networking solutions for content management, distribution, consumption. Specialist in content security and digital rights management as applied in distribution, storage and rendering.

Extensive experience as a technology and business management consultant and testifying expert to the legal community (case listings and references available). Federal and International Trade Commission experience.

ACCOMPLISHMENTS

- Developed successful consulting business offering a variety of technical, strategic, management, business development, intellectual property and expert witness services.
- Lead security expert to the six major Hollywood studios for specification of security for Digital Cinema.
- Led strategic planning and technical marketing campaign resulting in TV/COM emerging as the first US supplier of end to end digital television compression systems for major operators in Europe.
- Directed numerous large development programs employing leading edge technology, and successfully executed make vs. buy and partnership programs to meet requirements.
- Developed, patented and applied fundamental symmetric-key encryption technology now employed throughout the broadband/broadcast world.

EXPERIENCE

Entropy Management Solutions, President (Current)

Broadband and multimedia consulting services. Specializing in technology strategy and management (identification and development of core technologies, IPR leveraging, positioning, make/buy/partner), business and strategic planning, value creation and market development. Satisfied clients in content security, content delivery networks and systems, intellectual property management, digital rights management, technology management and planning.

- Active in Digital Cinema security standards development: Consultant to "6 Majors" DCI studio consortium, former chairman of SMPTE DC28 Security and Key Management Ad Hoc.
- Consultant to major SI Valley entity sponsoring the development of an IPR-free DRM solution.
- Security infrastructure planning for theatrical and post-theatrical digital content distributors.
- Security review and enhancement plan for digital high definition hospitality video on demand network.
- Windows Media DRM compliance evaluation for wireless phone Music on Demand service
- Perform set top box evaluations of logical and physical security robustness & copy protection compliance.
- Architectural and system security/DRM design for wireless media player.

DOCKE

- Corporate advisor to supplier of cable audience measurement data (business and technical development).
- Assisted broadband conditional access supplier in evolving security technology into the IP & multicast space.
- IPR assertion project manager for European conditional access technology company (8 actions pursued/settled).
- Provided numerous technical expert & consulting services for legal community.
- Numerous technology evaluations for various entities for purposes of market expansion, partnership evaluation.

TV/COM International Inc., Subsidiary of Hyundai Electronics America

Vice President of Product Management 1997-1999

Business management for company's product and system solutions: Competitiveness of product mix, contract compliance, margin definition/maintenance, product marketing, customer support/field service. Cross-functional direction of third party customer relations, contract administration, product life cycle processes, IPR licensing.

Find authenticated court documents without watermarks at docketalarm.com.

General Manager, Conditional Access Business Unit 1995-1997

Business head for the "Control and Conditional Access Systems" group, a P&L unit to develop, market, and support computerized network control and encryption-based broadband security systems for international cable, satellite and wireless/broadcast applications ("AlphaStar Television Network" and German "DF1" BetaCrypt DBS networks).

OCI Communications Inc./ TV/COM International 1990-1995 Vice President and Chief Technical Officer

Defined technical strategies and core technologies, rebuilt technical operations group (50 to 150), established cross functional team organization and formal project management disciplines. Formulated roadmap into digital television, and participated in realizing strategic partnering objectives (Nokia, C-Cube, Fuba, BetaTechnik, Irdeto). Participated in international standards and establishment of European and North American beachhead accounts.

OAK Communications, Inc., Division of OAK Industries, Inc. Senior Vice President, Domestic Operations 1988-1990

Managed US operations for OAK Communications: Technical operations, marketing and sales (revenue capture, account management). As part of three member executive team, executed OCI's divestiture from OAK Industries.

Director Engineering, VP Engineering, VP Tech Ops 1982-1988

Managed engineering, technical marketing and sales, field operations, factory liaison (Taiwan). Developed the industry's first widely deployed consumer systems employing encryption security for satellite, cable and broadcast.

OAK Industries, Inc. 1980-1982

Member, Corporate Advanced Technology Group

Research, simulation and prototyping of technologies in support of OAK's broadcasting businesses. Explored advanced control and digital coding systems for scrambling, compression and transmission of audio and video, and developed/patented the industry's first hard encryption key management and control methodologies for broadcast.

General Dynamics, Electronics Division 1974-1980 Senior Engineer/Project Engineer

Aerospace Engineering: communications, embedded processing, digital signal processing for portable man/aircraft wargame instrumentation, moving target indicator (MTI) digital radar, Global Positioning System receivers.

EDUCATION

Executive Program for Scientists and EngineersUniversity of CalifMaster of Science, Electrical EngineeringSan Diego State UBachelor of Science, Electrical EngineeringUniversity of Arize

DOCKE

University of California, San Diego	1984
San Diego State University	1979
University of Arizona	1974

OTHER

Publications/Presentations: Numerous technical and marketing presentations, publications and panels in the fields of cable and satellite broadcasting, standards development, broadband, Internet and digital cinema security.

Patents/Applications: "Storage & Delivery of Electronic Media with Advertising" US Pat App 10/028,013, and provisional following App 60/38,008, both Dec 2001. "Anonymous Transactions Over a System of Networked Computers" US Pat App 09/654,662. "Multilayer Encryption System for the Broadcast of Encrypted Information", U.S. Pat. No. 4,531,020, July 1985. "Universal Decoder", U.S. Pat. No. 5,113,440, May 1992.

Memberships (past/present): Society of Cable & Telecommunications Engineers, Society of Motion Picture and Television Engineers, Advanced Television Systems Committee, Organization for International Standardization, Institute of Electronic & Electrical Engineers.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
