## I. Statement of the Precise Relief Requested

Blue Coat Systems, Inc. (“Blue Coat”) submits, concurrently with this motion, a petition for *inter partes* review (the “Petition”) of claims 1, 9, 22, 23, 29, and 35 of U.S. Patent No. 8,225,408 (“the ’408 patent”), which is assigned to Finjan, Inc. (“Patent Owner”). Blue Coat respectfully requests joinder pursuant to 35 U.S.C. § 315(c) and 37 C.F.R. § 42.122(b) of the concurrently filed petition for *inter partes* review with the consolidated *inter partes* review concerning the same patent initiated by Palo Alto Networks, Inc. (“PAN”): *Palo Alto Networks, Inc. v. Finjan, Inc.*, Nos. IPR2015-02001 and IPR2016-00157, instituted on March 29, 2016 (“Consolidated PAN IPRs”).

This Motion for Joinder is timely under 37 C.F.R. §§ 42.22 and 42.122(b), as it is submitted within one month of the date on which the Consolidated PAN IPRs were instituted.

The Petition is also narrowly tailored to the grounds of unpatentability that are the subject of IPR2015-02001, with grounds of unpatentability that are substantially identical to the corresponding instituted grounds of the Consolidated PAN IPRs, including the same analysis of the prior art and expert testimony. In addition, joinder is appropriate because it will efficiently resolve the patentability of the challenged claims of the ’408 patent in a single proceeding, without prejudicing the parties to the Consolidated PAN IPRs.

Absent termination of PAN as a party to the proceeding, Blue Coat anticipates participating in the proceeding in a limited capacity. Moreover, joinder will have no impact on the trial schedule of the Consolidated PAN IPRs because those proceedings are still in their early stages.

Blue Coat has conferred with counsel for PAN regarding the subject of this motion. Counsel indicated that PAN does not oppose joinder.

## **II. Background**

Patent Owner has asserted the '408 patent against a number of defendants, including Blue Coat. On July 15, 2015, Patent Owner filed a complaint asserting the '408 patent against Blue Coat. *See* Case No. 5:15-cv-03295 (N.D. Cal. filed July 15, 2015).

On September 30, 2015, PAN filed a petition for *inter partes* review asserting two grounds of unpatentability, challenging claims 1, 9, 22, 23, 29, and 35 of the '408 patent, which was assigned Case No. IPR2015-02001. PAN later filed IPR2016-00157 on November 6, 2015, with four grounds challenging claims 3-7, 12-16, and 18-21. The Board granted institution of both IPRs on March 29, 2016 on each ground presented, and consolidated the two IPRs into a single proceeding. Oral argument in the Consolidated PAN IPRs is currently set for January 5, 2017. The Petition contains grounds of unpatentability that are substantially identical to the instituted grounds of IPR2015-02001, and in fact

duplicates the arguments made in the PAN petition, including the same prior art analysis and expert testimony. *See* Petition. Filed concurrently with the Petition is a second petition, IPR2016-00956, duplicating the grounds of IPR2016-00157 and also requesting joinder to the Consolidated PAN IPRs. In conjunction, the two Blue Coat petitions duplicate the instituted grounds of the Consolidated PAN IPRs.

### **III. Argument**

#### **A. Legal Standard**

The Board has authority to join as a party any person who properly files a petition for *inter partes* review to an instituted *inter partes* review. 35 U.S.C. § 315(c). A motion for joinder must be filed within one month of institution of any *inter partes* review for which joinder is requested. 37 C.F.R. § 42.122(b). In deciding whether to grant a motion for joinder, the Board considers several factors including: (1) the reasons why joinder is appropriate; (2) whether the party to be joined has presented any new grounds of unpatentability; (3) what impact, if any, joinder would have on the trial schedule for the existing review; and (4) how briefing and discovery may be simplified. *See, e.g., Hyundai Motor Co. v. Am. Vehicular Sciences LLC*, IPR2014-01543, Paper No. 11 at 3 (Oct. 24, 2014); *Macronix Int'l Co. v. Spansion*, IPR2014-00898, Paper 15 at 4 (Aug. 13, 2014) (quoting *Kyocera Corporation v. Softview LLC*, IPR2013-00004, Paper 15 at 4 (April 24, 2013)).

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
