Statements made by us in this report and in other reports and statements released by us that are not historical facts constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21 of the Securities Exchange Act of 1934, as amended. These forward-looking statements are necessarily estimates reflecting the judgment of our management based on our current estimates, expectations, forecasts and projections and include comments that express our current opinions about trends and factors that may impact future operating results. Disclosures that use words such as we "believe," "anticipate," "estimate," "intend," "could," "plan," "expect," "project" or the negative of these, as well as similar expressions, are intended to identify forward-looking statements. These statements are not guarantees of future performance and rely on a number of assumptions concerning future events, many of which are outside of our control, and involve known and unknown risks and uncertainties that could cause our actual results, performance or achievements, or industry results, to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. We discuss such risks, uncertainties and other factors throughout this report and specifically under the caption "Risk Factors" in Item 1A of Part I of this report below. Any such forward-looking statements, whether made in this report or elsewhere, should be considered in the context of the various disclosures made by us about our businesses including, without limitation, the risk factors discussed below. Except as required under the federal securities laws and the rules and regulations of the U.S. Securities and Exchange Commission, we do not have any intention or obligation to update publicly any forward-looking statements, whether as a result of new information, future events, changes in assumptions or otherwise.

PART I

Item 1. *Business*

General Overview of our Business

We are a multi-specialty health care company focused on developing and commercializing innovative pharmaceuticals, biologics, medical devices and over-the-counter products that enable people to live life to its full potential - to see more clearly, move more freely and express themselves more fully. We discover, develop and commercialize a diverse range of products for the ophthalmic, neurological, medical aesthetics, medical dermatology, breast aesthetics, obesity intervention, urological and other specialty markets in more than 100 countries around the world.

We are also a pioneer in specialty pharmaceutical, biologic and medical device research and development. Our research and development efforts are focused on products and technologies related to the many specialty areas in which we currently operate as well as new specialty areas where unmet medical needs are significant. In 2011, our research and development expenditures were approximately 16.9% of our product net sales, or approximately \$902.8 million. We supplement our own research and development activities with our commitment to identify and obtain new technologies through in-licensing, research collaborations, joint ventures and acquisitions.

Our diversified business model includes products for which patients may be eligible for reimbursement and cash pay products that consumers pay for directly out-of-pocket. Based on internal information and assumptions, we estimate that in fiscal year 2011, approximately 60% of our product net sales were derived from reimbursable products and 40% of our product net sales were derived from cash pay products, including products in emerging markets that would typically be reimbursed in North America and Europe.

We were founded in 1950 and incorporated in Delaware in 1977. Our principal executive offices are located at 2525 Dupont Drive, Irvine, California, 92612, and our telephone number at that location is (714) 246-4500. Our website address is www.allergan.com (the information available at our website address is not incorporated by reference into this report). We make our periodic and current reports available on our website, free of charge, as soon as reasonably practicable after such reports are electronically filed with, or furnished to, the U.S. Securities and Exchange Commission, or SEC. The SEC maintains a website at www.sec.gov that contains the reports and other information that we file electronically with the SEC.

Operating Segments

We operate our business on the basis of two reportable segments - specialty pharmaceuticals and medical devices. The specialty pharmaceuticals segment produces a broad range of pharmaceutical products, including: ophthalmic products for dry eye, glaucoma, inflammation, infection, allergy and retinal disease; *Botox*[®] for certain therapeutic and aesthetic indications; skin care products for acne, psoriasis, eyelash growth and other prescription and over-the-counter skin care products; and urologics products. The medical devices segment produces a broad range of medical devices, including: breast implants for augmentation, revision and reconstructive surgery and tissue expanders; obesity intervention products; and facial aesthetics products. The following table sets

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
