Additional Information about Patents

- Patent information is published on or after the submission date as defined in 21 CFR 314.53(d)(5).
- Patent listings published prior to August 18, 2003, only identify method-of-use claims. The listed patents may include drug substance and/or drug product claims that are not indicated in the listing.
- As of December 5, 2016, an NDA holder submitting information on a patent that claims both the drug substance
  and the drug product (and is eligible for listing on either basis) is required only to specify that it claims either the
  drug substance or the drug product. Orange Book users should not rely on an Orange Book patent listing,
  regardless of when first published, to determine the range of patent claims that may be asserted by an NDA
  holder or patent owner.
