Unpaired t test results

P value and statistical significance:

The two-tailed P value equals 0.2455

By conventional criteria, this difference is considered to be not statistically significant.

Confidence interval:

The mean of Group One minus Group Two equals -0.1400 95% confidence interval of this difference: From -0.3766 to 0.0966

Intermediate values used in calculations:

t = 1.1626df = 582

standard error of difference = 0.120

Learn more:

GraphPad's web site includes portions of the manual for GraphPad Prism that can help you learn statistics. First, review the meaning of <u>P values</u> and <u>confidence intervals</u>. Then learn how to interpret results from an <u>unpaired</u> or <u>paired</u> t test. These links include GraphPad's popular <u>analysis checklists</u>.

Review your data:

Group	Group One	Group Two
Mean	-0.2400	-0.1000
SD	1.3670	1.5379
SEM	0.0800	0.0900
N	292	292
