current frame encoding attribute based ...
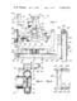

Video encoding and decoding apparatus
Grant US6188792B1 · Takeshi Chujoh · Kabushiki Kaisha Toshiba
Priority 1995-10-27 · Filing 1999-08-25 · Grant 2001-02-13 · Publication 2001-02-13
An encoding apparatus comprising a **encoder** for encoding an input video signal, thereby generating encoded data, an output buffer for receiving the encoded data and outputting the data at a predetermined transmission rate, and an encoding ...

### Ball throwing machine and system having three individually controllable wheel ...
Grant US4442823A · Johnnie E. Floyd · Johnnie E. Floyd
Priority 1982-03-08 · Filing 1982-03-08 · Grant 1984-04-17 · Publication 1984-04-17
32. The apparatus of claim 26 wherein said input means employs two respective shaft **encoders** 207 and 209 connected with an orientable ball knob 211 and holder 213 such that the ball knob 211 can be rotated to a setting on the shaft **encoder** ...

Video coding using segmented frames and retransmission to overcome channel ...
Grant US5768533A · Xiaonong Ran · National Semiconductor Corporation
Priority 1995-09-01 · Filing 1995-09-01 · Grant 1998-06-16 · Publication 1998-06-16
17. The **encoder** of claim 16, wherein the encoding circuit further comprises means for incrementing a count each time a corresponding frame segment is inter coded and resetting the count each time the corresponding frame segment is intra ...

Method and systems for scalable representation of multimedia data for ...
Grant US6536043B1 · Jacob Leon Guedalia · Roxio, Inc.
Priority 1996-02-14 · Filing 1997-01-06 · Grant 2003-03-18 · Publication 2003-03-18
an **encoder** for compressing the object movie into a series of encoded data blocks, each block comprising a sequence of encoded frames, with the property that successive blocks when decoded and integrated together provide successively higher ...

High speed continuous conveyor printer/applicator
Grant US5342461A · William J. Murphy · Imtec, Inc.
Priority 1992-04-14 · Filing 1992-04-14 · Grant 1994-08-30 · Publication 1994-08-30
A label printer and applicator system which determines the height and position of moving objects on a conveyor while printing labels and positioning the labels for application on the moving objects. The printer/applicator includes a ...

Moving picture coding and/or decoding systems, and variable-length coding and/ ...
Grant US6704494B1 · Takeshi Chujoh · Kabushiki Kaisha Toshiba

PUMA Exhibit 2015
