

EXHIBIT B2

LEGO® MINDSTORMS™ & LEGO Technic

My own creations...

[Card Reader](#)

Read values on LEGO binary cards.

[Card Reader 2](#)

Improved, faster version of Card Reader.

[Radar Car](#)

slows in front of obstacles and avoids them.

[Brick Mixer](#)

Orders bricks on a conveyor belt according to the value read on a card.

[Wall Follower](#)

RoverBot that follows a wall using my [GP2D12 distance sensor](#).

[Gonsuke and MedamaOyaji](#)

Two tiny walking robots, designed by [Hiroki Shirakawa](#). I created building instructions...

[See-Saw](#)

Not fancy as a LEGO construction, but interesting control program challenge.

[Creeping Caterpillar](#)

A strangely moving vehicle, fun to watch

[Peaucellier Cell](#)

Converts rotation motion to linear motion

Brick sorters - Three generations of brick sorters, the latest one includes full building instructions and supports my color sensor.

[Brick sorter 1](#) - [Brick sorter 2](#) - [Brick sorter 3](#)

[Rack and Pinion Steering Car](#)

[Barrel Collector Robot](#)

Thanks to its laser sensor, this robot detects barrels up to 3 meters away, goes straight to them, grab them with its arm and collect them in a basket.

[Hammerhead, the CD thrower](#)

My entry for the [Mindstorms COMMUNITY CONTEST # 2: Discus](#). This beast throws Compact Disks 15 feet away and more!

[P'titgneugneu the stair climber](#)

My entry for the [Mindstorms COMMUNITY CONTEST # 3: Stairs](#).

A bit too flimsy, but nonetheless won the contest!

[Pneumatic Arm](#)

A fully pneumatic arm, loosely built after the human arm.

Update October 2004: Now includes LDraw files

[Brick Simon, a memory game](#)

My entry for the [Mindstorms COMMUNITY CONTEST # 6: Simon](#). Also includes a simplified version that can be built with Robotics Invention System set only.

New: October 2004.

Other LEGO stuff

A visit to [LEGOLAND® Deutschland](#)

[Sphere Sculpture](#)

Building a multicolored LEGO sphere with a single "Blue Tub"

[Brick Remover](#)

An imaged tutorial on the use of this little thing.

[Rubber belts modeling](#)

DAT files to create rubber belts in you favorite CAD program.

LeoCAD

[Unofficial LeoCAD parts updates](#)

Parts updates for LeoCAD, corresponding to recent LDraw updates

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
