Clay / Mike,

Please find attached a draft copy of the Technical Review Report on the Digifonica VoIP System.

This has been sent in PDF form so we can be sure it appears as intended, since we have found inconsistencies between MS-Office and OpenOffice for presentation of more complex documents.

If you have any comments or corrections that you would want reflected in this document, then please do send them to us so that we can remove any errors when promoting the document to the final release version.

Thank you again for your helpful and open manner during the review process; I hope that Stuart and I did not intrude or distract too much from your day-to-day business. We do still have the two Sipura handsets, reprovisioned to the London node. If you want these collected by Mike or Ed Candy then do let us know and we will pass them on whenever suitable.

Ian will follow up with you to arrange for delivery of the final version of the document, but the content will otherwise be as seen in this draft version. Anything else you feel you need from us, feel free to contact any of the team here for assistance.

Regards,
John Rutter
