TRI/+ PROGRAM SHIPPABLE PRODUCTS CATALOG

DIGITAL EQUIPMENT CORPORATION

October 1992 Revision 18.0

TA008-10-92

About the Catalog:

The Short Version Catalog lists all the products contained in the full version of the TRI/+ Shippables Product Catalog according to interconnect. The Full Version Catalog organizes products in categories and contains distributors' addresses, and telephone numbers.

Regarding vendors' information in this catalog:

The product information in this catalog was supplied by the vendors, and Digital has made minor changes to it to suit the catalog's format. The information herein can change without notice and Digital is not responsible for its accuracy.

Customers may want to obtain references, documentation, and/or demonstrations before purchasing these products, because mention of non-Digital products and/or services is for informational purposes only and constitutes neither an endorsement nor a recommendation. Digital assumes no responsibility with regard to the selection, performance, or use of the products. All understandings, agreements, or warranties, if any, take place directly between the vendors and the prospective users.

Digital does not assume any liability for incidental or consequential damages arising out of the application or use of any product or services described in this catalog. Neither does this information convey any license or rights. This disclaimer of warranty is in lieu of all warranties whether expressed, implied, or statutory, including implied warranties of merchantability or fitness for a particular purpose.

Regarding FS-numbers for the products:

FS-numbers (Digital Field Service) assigned to products in this catalog indicate that Digital's U.S. Services has **at minimum started planning service support for those products in the U.S.A.** For customer service status in countries other than the U.S., contact your local Digital Service representative.

1992 (c) by Digital Equipment Corporation

Digital, DECstation, TURBOchannel, and ACCESS.bus are trademarks of Digital Equipment Corporation. UNIX is a registered trademark of UNIX System Laboratories, Inc. All other products or services mentioned herein are identified by the trademarks, service marks, or product names as designated by the companies who market those products. Inquiries concerning such trademarks should be made directly to those companies. PostScript is a registered trademark of Adobe Systems, Incorporated.

TRI/+ Program Third (TRI) Parties with ADD-On Products for RISC/UNIXtm Platforms

This document lists hardware products provided by third party vendors that you can add on to your DECstation/DECsystem as options. Using these add-on products and the applications in this catalog, total worksystem solutions for many market applications are now possible. Contact a vendor directly for more information about a product or to purchase it.

Digital's TRI/+ Program provides technical and marketing support worldwide to third-party vendors using the SCSI, TURBOchannel, VME, ACCESS.bus, and Futurebus+ interconnects to develop add-on products for open systems. Use these numbers to directly contact the program office.

This catalog is updated on line the fourth Monday of each month. Digital customers can ask their sales and sales support representative for updates. Digital people should call or write TRI/+ for the on-line address to copy the catalog.

WHAT IS NEW THIS MONTH

The following is a list of new products and companies that were added to the catalog this month. The catalog includes Digital Customer Service (FS) numbers for products vendors have qualified with Digital Services. A Digital Sales Representative or Digital Authorized Reseller can provide you quote for a Digital service contract for TRI/+ vendor products. Use the Field Service numbers in this catalog for this purpose.

5 First-Time New Products

ACC Systems Dual Ethernet Link TURBOchannel Adapter (Shipping)**

MAGMA 4/16 Mbit/sec Token Ring Adapter (Shipping)**

Fast and Wide SCSI Adapter*
Serial/Parallel Printer Controller*
Serial Communications Controllers (3)*

WHAT WAS NEW LAST MONTH

The following is a list of new products and companies that were added to the catalog last month.

Design Analysis Associates, Inc. TURBOchannel 8-Line Interface Option*

TURBOchannel 2-Line Serial Interface (Shipping)**

Digital Equipment Corporation TURBOchannel-to-CI Adapter (Shipping)**

TURBOchannel CB Board (Shipping)**

Extron Electronics Two Input Analog Switcher

Four Input Analog Switcher Analog Distribution Amplifiers (4)

Fore Systems TURBOchannel ATM Computer Interface (Shipping)**

Genroco IPI-3 TURBOstor Disk Controller (Shipping)**

Lantronix 13-line Terminal/Print Servers (2)

9, 18-port Twisted Pair Repeater/Hubs (3)

UTP-to-10Base2 Converter

Uninet Peripherals, Inc. DRV11 SCSI Interface

DOCKET

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
