# A Note Concerning Responsible Use of Copyrighted Materials

Like photocopiers, scanners can be misused by improper copying of copyrighted material. Although Section 107 of the U.S. Copyright Act of 1976 (Title 17, United States Code), the "fair use" doctrine, permits limited copying in certain circumstances, those circumstances may not be as broad as some people assume. Unless you have the advice of a knowledgeable attorney, be responsible and respectful by not scanning published material without the permission of the copyright holder.

## Introduction

This package contains everything you need for professional quality color scanning:

- ❑ EPSON® ActionScanner®II color scanner, which scans in full color (24 bit) or grayscale monochrome (8 bit) at 300 dpi (dots per inch)
- ❑ Bidirectional parallel interface card, which provides an additional parallel interface for your computer
- ❑ Bidirectional parallel interface cable
- ❑ EPSON Scanning Utilities (EPSON Scan! II and EPSON TWAIN), which let you capture scanned images, export the images in a variety of formats, calibrate your scanner, and use the scanner's advanced features with software programs that support the industry standard TWAIN interface
- ❑ Image-In® Easy Pack, a combination image-editing, optical character recognition (OCR), and file conversion program that lets you edit and retouch color images, convert hard copies into formatted text, and convert the files into a variety of formats.

This booklet tells you how to set up your scanner, install the software, and scan an image. If you need more detailed information after you begin scanning, consult the individual manuals for the ActionScanner II, EPSON Scanning Utilities, and Image-In.

---

## System and Memory Requirements

For the scanner hardware and software to work properly, your system must include the following minimum configuration listed below for either Windows 3.1 or Windows 95:

Microsoft® Windows™ 3.1 Requirements:

- A 386-based (or higher) IBM® compatible computer or an IBM PS/2®
- MS-DOS® version 5.0 or higher
- Microsoft Windows 3.1
- 3.5-inch, high-density diskette drive
- At least 100MB of free hard disk space for scanner applications and images
- 8MB of system RAM plus a permanent Windows swap file providing 8MB to 16MB of virtual memory (a swap file of contiguous space on your hard disk drive which Windows can use; see your Microsoft Windows manual)

*Note:*

*8MB is the minimum amount of RAM; graphics applications run faster and more efficiently with more RAM.*

- A mouse or other compatible pointing device
- A Video Graphics Array (VGA) or other Windows compatible display adapter card or built-in interface supporting at least 256 colors; highquality, realistic color scans require a card or interface supporting 16 million colors
- A color monitor compatible with the card or interface you are using.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
