I. INTRODUCTION

A. *Engagement*

1. My name is Dr. Alan C. Bovik. I have been asked to submit this declaration on behalf of Securus Technologies, Inc. (“Securus” or “Patent Owner”) in connection with Patent Owner’s response (the “Response”) to the petition (the “Petition”) of Global Tel*Link Corporation (“GTL” or “Petitioner”) for *inter partes* review of U.S. Patent No. 9,083,850 (“the ’850 patent”). Securus’ Response, I understand, is being submitted to the Patent Trial and Appeal Board (“PTAB” or the “Board”) of the United States Patent and Trademark Office (“PTO” or “USPTO”) in this proceeding having case number IPR2016-01362.

2. I have been retained as a technical expert by Petitioner to study and provide my opinions on the technology claimed in, and the patentability or nonpatentability of, claims 1-21 of the ’850 patent.

3. As part of my study, I have reviewed and am familiar with the specification of the ’850 patent. I understand that the ’850 patent has been provided as Exhibit 1001. Previously, Patent Owner filed its Preliminary Response (Paper 9, referred to as the “Preliminary Response”) to the Petition (Paper 2, referred to as the “Petition”). And the Board issued its Decision (Paper 11, referred to and cited to as the “Decision”), which instituted review based on the finding that there was a

reasonable likelihood that the Petitioner would prevail as to all claims 1-21 of the '850 patent.

B. Background and Qualifications

4. I expect to testify regarding my background, qualifications, and experience relevant to the issues in this *inter partes* review proceeding. I hold a Ph.D. in Electrical and Computer Engineering from the University of Illinois, Urbana-Champaign (awarded in 1984). I also hold a Master's degree in Electrical and Computer Engineering from the University of Illinois, Urbana-Champaign (awarded in 1982).

5. I am a tenured full Professor and I hold the Cockrell Family Regents Endowed Chair at the University of Texas at Austin. My appointments are in the Department of Electrical and Computer Engineering, the Department of Computer Sciences, and the Department of Biomedical Engineering. I am also the Director of the Laboratory for Image and Video Engineering ("LIVE").

6. My research is in the general area of digital television, digital cameras, image and video processing, computational neuroscience, and modeling of biological visual perception. I have published over 800 technical articles in these areas and hold seven U.S. patents. I am also the author of *The Handbook of Image and Video Processing, Second Edition* (Elsevier Academic Press, 2005); *Modern Image Quality Assessment* (Morgan & Claypool, 2006); *The Essential Guide to*

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
