IPR2016-01370  
Patent 8,664,231 B2

---

Petitioner's Reply to Notice of Filing Date Accorded

The Board required corrections concerning the exhibits and the certificate of word count filed with the Petition. Paper 6, 2.

There is no Exhibit 1030. Petitioner's Second Updated Exhibit List reflects the inadvertent omission of an exhibit having this exhibit number.

Exhibit 1037 was included on Petitioner's Updated Exhibit List (Paper 3) filed July 20, 2016, the same day as the Petition.

The word count of 13,984 words included in the certificate of word count inadvertently included the 343-word "mandatory notices" section of the Petition. The certificate of word count inadvertently stated that the "grounds for standing" and "mandatory notices" sections were excluded from the count. A corrected certificate of word count follows:

Pursuant to 37 C.F.R. § 42.24 (d), I certify that the Petition filed as Paper 1 in IPR2016-01370 contains 13,641 words as counted by the word-processing program used to generate the Petition. The word count does not include a table of contents, a table of authorities, mandatory notices under § 42.8, a certificate of service or word count, or appendix of exhibits or claim listing.

Respectfully submitted,

Dated: August 11, 2016
