### ***Introduction***

Welcome to the future of personal music reproduction! Using the latest advances in hardware and software, the Personal Jukebox allows you to carry a sizable library - up to 81 hours - of your favorite music wherever you go.

Your Personal Jukebox comes pre-loaded with a sampler selection of music so you can use it right out of the box. You can replace these recordings or add selections from your own CD library using the companion Jukebox Manager software. Once installed on your Personal Computer, this software allows you to place a music CD in your computer's CD-ROM drive and download all or part of it into your Personal Jukebox. The software also provides a set of simple but powerful tools for organizing the music in your Personal Jukebox for fast and easy selection and playback.

Exciting features you'll discover with your new Personal Jukebox are:

- Rechargeable Lithium-Ion battery with ten-hour battery life.
- Built-in battery charger.
- Use it anywhere - play it with the headphones or through the speakers in your home or car stereo with inexpensive, optional accessories.
- Download mp3 files from your PC to your Personal Jukebox
- Capture music from CDs
  - High-quality music capture
  - Compatible with a wide variety of CD-ROM drives
  - No added pauses, clicks, or blank spots between tracks, even for live recordings
- Simple but powerful tools to organize your music collection your way.

- Easy to upgrade for new features in the future, e.g., to download and play music stored in different formats.

## ***Safety Information***

### **Warnings**

To prevent fire or shock hazard do not expose the unit to moisture.

To avoid electrical shock, do not open the case. If service is needed, take the Personal Jukebox to an authorized service center.

Handle the battery carefully. Improper handling or disposal can lead to heat generation, smoke, bursting, or fire. See the *Power Sources* section below for more information. In no event shall seller be liable for any direct, incidental or consequential damages of any nature, or losses or expenses resulting from any defective product or the use of any product.

Do not use any other external power adapter since it may damage the Personal Jukebox.

Do not leave the Personal Jukebox where it will be subjected to extremes of light, temperature (such as inside a parked car), moisture, or vibration.

Do not use the headphones while driving, cycling, or operating any motorized vehicle. This can create a traffic hazard and is illegal in many areas. It can also be dangerous to play music at high volume while walking, especially at pedestrian crossings.

Avoid using the headphones at high volume for extended periods. If you experience ringing in your ears, reduce the volume.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
