

**Godmar Back**  
**Department of Computer Science**  
**Virginia Tech**

Blacksburg, VA 24060  
Phone: (540) 231-3046 work  
Email: gback@cs.vt.edu  
URL: people.cs.vt.edu/gback/

**EDUCATION**      **PhD Computer Science**, University of Utah      1994 to 2002  
Cumulative GPA 3.96

*Dissertation Topic: "Isolation, Resource Management and Sharing in the KaffeOS Java Runtime System." (2003 ACM SIGPLAN Doctoral Dissertation Award)*

**Study of Computer Science**, Technical University of Berlin      1992 to 1994

**Study of Mathematics and Computer Science, Vordiplom**,      1989 to 1992  
Humboldt University of Berlin

**RESEARCH**      **Associate Professor**      2010 to present  
**EXPERIENCE**      **Assistant Professor**      2004 to 2010  
Virginia Polytechnic and State University, Department of Computer Science

*Current research interests include: operating and runtime systems, virtualization, software engineering, software visualization, web technology, cloud-based systems, high-performance computing, domain-specific languages, and library technology.*

**Postdoctoral Scholar**      2001 to 2004  
Stanford University, Computer Systems Laboratory

*Research on static analysis tools for systems: developed MJ system for checking properties and implementing bug-finding analyses in Java code.  
Design and implementation of DataScript, an input description language that supports code generation. Published in GPCE'02.*

**Research Assistant**      1995 to 2001  
University of Utah, Computer Systems Laboratory

*Dissertation research on runtime systems that support multiple applications. Published in OSDI'00, Usenix'00, and HotOS'99.  
Research on component-based operating systems (OSKit) and microkernel systems (Fluke). Published in OSDI'96 and SOSP'97. This research was supported in part by the Defense Advanced Research Projects Agency..*

**TEACHING**      **Associate Professor**      2010 to present  
**EXPERIENCE**      **Assistant Professor**      2004 to 2010  
Virginia Polytechnic and State University

*Fall 2016: taught undergraduate course CS3984, "Cloud Software Engineering."  
Spring 2013, 2015, 2017: taught undergraduate course CS4284, "Systems and Networking Capstone."  
Fall 2012, 2013, 2014, 2015, 2016: taught undergraduate ACM ICPC programming team class.  
Spring 2011, 2014: taught graduate course CS6204, "Execution Environments for Cloud Applications." Developed course material for this class.  
Spring 2010: taught undergraduate course CS1114, "Introduction to Software Design."*

Fall 2009, Spring 2010, Fall 2010, Fall 2011, Fall 2014, Spring 2016: taught undergraduate course CS3214, "Computer Systems." Developed project software and course material for this class.

Fall 2004, 2005, 2007, 2012, 2013, 2015: taught graduate course CS5204, "Operating Systems." Developed course material for this class.

Spring 2005, 2006, 2009, 2012: taught graduate course CS5565, "Network Architectures and Protocols." Developed project software and course materials for this class.

Spring 2006, Fall 2006, Spring 2007, Fall 2007, Fall 2008: taught undergraduate course CS3204, "Operating Systems." Developed course material and lecture notes for this class.

Spring 2007: taught graduate course CS6304, "Advanced Topics in Program Analysis." Developed course material for this class.

Frequent guest lectures in CS2204, CS4414, CS6604, CS5984, CS3214, ECE2574.

**Instructor** 2002 to 2003  
Stanford University

Taught systems elective CS143, "Introduction to Compilers." Designed projects and course materials for class.

Guest lecturer in CS240, "Advanced Operating Systems."

**Teaching Assistant** 1994 to 1995  
University of Utah, Department of Computer Science

Helped teach senior-level undergraduate/entry-level graduate courses: operating systems, networking, and compilers. Developed and graded assignments and course projects for students.

Guest lecturer in CS3510 "Advanced Algorithms and Data Structures."

**INDUSTRIAL EXPERIENCE** **Internship** Summer 1999  
Compaq Western Research Laboratory, Palo Alto

Research on Java virtual machines running on low-power devices. Published in SIGMETRICS'00.

**Internship** Summer 1994  
Konrad-Zuse-Institut in Berlin, Germany

Research on parallel programming models for branch-and-cut algorithms on the Cray T3D.

**Consultant** 1991 to 1994  
Mummert+Partner Unternehmensberatung GmbH, Berlin, Germany

Developed client/server software with SAP R/3, Oracle, AIX. Administered Internet site.

**STUDENTS GRADUATED** **PhD**  
Ruslan Nikolaev, 2013  
Mehmet Belgin, 2010  
Shahrooz Feizabadi, 2006

**MS**  
Xiaozhong Pan, 2015  
Sushrut Shirole, 2014  
Sony Vijay, 2013  
Brian McDaniel, 2012  
Brian Nicholson, 2011

Tilottama Gaat, 2008  
Nathan Baker, 2007  
Abhijit Deodhar, 2007  
Vijay Kumar Muthukumaraswamy Sivakumar, 2007  
Prasad Gopal, 2006  
Veena Basavaraj, 2006

## REFEREED PUBLICATIONS

### BOOK CHAPTERS

- [1] Annette Bailey and Godmar Back. Streamlining access to library resources with LibX. In Edward Iglesias, editor, *Robots in Academic Libraries: Advancements in Library Automation*, Advances in Library and Information Science (ALIS) Book Series, pages 62–90. IGI Global, April 2013.
- [2] Godmar Back and Annette Bailey. Tools and technologies: Visualizing research activity in the discovery layer in real-time. In Lauren Magnuson, editor, *Data Visualization: A Guide to Visual Storytelling for Librarians*, pages 45–65. Rowman & Littlefield, Lanham, MD, 2016.

### JOURNALS

## AWARDS

Winner of 2007 ALA/LITA Brett Butler Entrepreneurship Award for LibX.

Winner of 2003 ACM SIGPLAN Doctoral Dissertation Award.

Travel scholarship awards from Usenix, ACM, and IEEE for various conferences: SOSP 1997, HotOS 1999, OSDI 1999, Usenix 2000, OSDI 2000.

Member of team that won 1995 Regional Annual ACM Programming Contest in the Mountain Region.

## PROFESSIONAL ACTIVITIES

Program Committee Member, SPLASH/Wavefront 2013, Indianapolis, IN.

Program Committee Member, International Workshop on Programming Support Innovations for Emerging Distributed Applications (PSI EtA - ## 2010)

Program Committee Member, ICPP 2008, Portland, OR.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
