### **Overview**

Mr. Seifert has over 45 years of experience in the computer industry, specializing in computer network architecture, systems, and product design. He was one of the original developers of the 10 Mb/s Ethernet technology at Digital Equipment Corporation, and is now President of *Networks and Communications Consulting*, providing services to a wide range of network, semiconductor, and computer systems manufacturers, investors, and users. He taught graduate-level courses at the University of California for over 15 years, has published three best-selling technology treatises, and has chaired and co-authored numerous international standards for computer communications. He has served as a technology consultant and testifying expert to law firms in more than thirty cases over the past fifteen years. He is an advisor to numerous venture capital investors, has founded high-tech companies both in the U.S. and abroad, and has served on the Executive Boards of a number of firms. Mr. Seifert is an attorney, admitted to practice law in California and in the United States District Court for the Northern District of California.

### **Education**

B.E. (E.E.)	City College of New York, 1976
M.S.E.E.	Worcester Polytechnic Institute, 1979
M.B.A.	Clark University, 1984
J.D.	Santa Clara University, 2006 (summa cum laude)

### **Computer/Communications Industry Work Experience**

**1987-Present:** *Networks and Communications Consulting* (Los Gatos, CA) President and Founder

Technical and business consulting to manufacturers, integrators, investors, and users of LAN, semiconductor, internetworking, and computer systems products. More than 200 clients over 20 years, with projects ranging from strategic planning through product design, specification, and training.

# **1984-1987:** *Industrial Networking, Inc.* (Santa Clara, CA) Chief Technology Officer

First employee and founding CTO for start-up company developing factory LAN modems, controllers, and systems. Provided technical leadership for firm (over 100 employees), as well as design and implementation of new manufacturing and test processes.

1976-1984: Digital Equipment Corp. (Maynard, MA)

Principal Engineer/Engineering Supervisor/Consulting Engineer

Technical leader for group of engineers developing first commercial Ethernet products. Co-author (with Xerox and Intel Corp.) of industry-standard Ethernet specification. Designed and developed physical channel for 10 Mb/s Ethernet, including serial interface and transceiver silicon. Charter member of IEEE 802 LAN Standards committee, and co-author of IEEE 802.3 Local Area Network Standard.

## **Teaching Experience**

1986-2002:	<i>University of California (Berkeley)</i> Graduate level courses on computer network technology.
1999:	<i>University of California (Santa Cruz)</i> Undergraduate level course on business information systems.
1998:	<i>Oxford University (U.K.)</i> Graduate level seminar on computer network technology.
1993-95:	<b>University of California (Santa Barbara)</b> Graduate level seminars on computer network technology.
1987-2002:	<i>Networks and Communications Consulting</i> Nearly 100 public and private seminars delivered on computer network technology, plus videotape sales.

## **Entrepreneurial Experience**

1992-2000:	<i>Tut Systems</i> (Pleasanton, CA) Technical Advisory Board Helped develop initial business plan, technology validation. Company taken public, subsequently acquired by Motorola.
1997-2005:	<i>Mysticom, Inc.</i> (Netanya, Israel; Mountain View, CA) Founder, Chief Architect, Board of Directors, Technical Advisory Board Key member of company start-up team. Helped with initial incorporation, financing, business plan, market validation. Company acquired by TranSwitch Corp.
1997-1998:	<i>Juniper Networks</i> (JNPR; San Jose, CA) Member of start-up team. Helped with initial product architecture, market validation. Company taken public.
1997-1998:	<b>Yago Systems (Sunnyvale, CA)</b> Member of start-up team. Helped with technology issues, market validation. Company acquired by Cabletron Systems.
1999-2003:	<i>Nishan Systems</i> (San Jose, CA) Technical Advisory Board Consulted to executive team on technology issues. Company acquired by McData Corp.
2000-2002:	<i>JatoTech Ventures</i> (Austin, TX) Technical Advisory Board Evaluated and advised general partners on technology investments.
2000-2003:	<i>TeraBlaze, Inc.</i> (Cupertino, CA) Founder, Chief Architect Key member of company start-up team. Helped with initial incorporation, financing, business plan, market validation. Company acquired by Agere Systems.
2000-2003:	<i>Storage Networks</i> (Waltham, MA) Technical Advisory Board Consulted to executive team on technology issues. Company taken public, later dissolved.
2001-2007:	<i>Silverback Systems</i> (San Jose, CA) Technical Advisory Board Member of company start-up team. Helped arrange financing, consulted on technology issues. Company acquired by Brocade Communications.
2001-2003:	<i>Cavium Networks</i> (CAVM; San Jose, CA) Technical Advisory Board Member of company start-up team. Consulted on technology issues. Company taken public.

### Legal Consulting Experience

From 1994–present, served as technology consultant and expert witness in numerous cases (for both plaintiffs and defendants) involving patent infringement, breach of contract/warranty, and tort liability. Services have included: clarifying and interpreting technology details for counsel, preparation of expert declarations and reports, providing testimony (both deposition and open court), and prior art searches. Has also served as Special Master (Sup. Ct., CA) in a high-profile trade secret dispute. In 2006, admitted to the bar in California, and to the Federal bar for the Northern District of California.
