Certification of National Diet Library Library Materials (response)

The matter about which you enquired in the missive dated June 27, 2016 is as follows.

Remarks

1. The period in which users could view the “Japan Train Operation Association Magazine” (Z5-333), Vol. 37, No. 3, certified by Nat. Lib. Use No. 1601045-2-46 of 2016, “Certificate of National Diet Library Materials,” is anytime after March 13th, 1995 (Monday).

(Reference)

In the case of the present materials, the workflow up to provision for use in the library is as follows.

- (1) Sorting, registration and marking the present materials with the library material holding stamp, in the registry system of the Domestic Materials Section of the Collection Department
(The reception date certified by the “Certificate of National Diet Library Materials”)
- (2) Sending the present materials from the registry system of the Domestic Materials Section of the Collection Department to the Magazines Section of the Serial Publications Department
(This is normally sent so as to arrive on the morning of the day following (1).)
- (3) Preparatory work for provision, such as sorting and shelving work for the present materials in the Magazines Section of the Serial Publications Department
(Normally, this would be sorted in the morning of the day following (1), and shelved in the evening, or later.)
- (4) Start of provision of the present materials for usage
(Normally, the situation would be such as to allow provision of the materials in response to a viewing request from the next day on which the library is open, following (3).)

In keeping with Nat. Lib. Use No. 1601045-2-46 of 2016, "Certificate of National Diet Library Materials," (1) is March 9, 1995 (Thursday) and therefore, in normal cases (2) and (3) are estimated to be March 10, 1995 (Friday) and, since the library was not open on the second Saturday of each month at that time, (4) is estimated to be March 13, 1995 (Monday).

2.

The catalog provided to users for "Japan Train Operation Association Magazine" (Z5-333), Vol. 37, No. 3, certified by Nat. Lib. Use No. 1601045-2-46 of 2016, "Certificate of National Diet Library Materials," at the time of receipt is the booklet catalog in Attachment 1. The catalog in question was produced by outputting data stored in a computer system, and this data was first created on July 21st, 1986. Users specified magazine names and request numbers with this booklet catalog, and made requests for materials by stipulating volume numbers such as "Vo. 37, No. 3" or "latest issue."

Furthermore, workers in the Domestic Section of the Collection Department managed the record of receipt for these materials with the card in Attachment 2, and the materials were shelved on the first underground level of the archives in the annex to the main Tokyo branch of the National Diet Library.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
