Background

Summary

Firstly I am an inventor, secondly an entrepreneur. My love of innovation is greater than my love of money.

I am the inventor of the control systems found on all Scuf Gaming products and aim to continue to design the very best equipment for professional and casual gamers alike.

I have a life long passion for computer games starting with the zx81 back in the seventies. Continuing today with a love of FPS games and the global competitive E Sports scene.

It's my pleasure to design and supply the world's top gamers with equipment that they love to use!

Experience

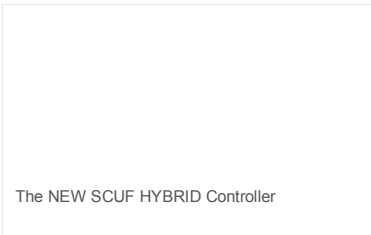

Inventor RETIRED

June 2015 – Present (1 year 8 months) | Every where, land and sea!

After many years with Scuf I came to realise that Scuf simply out grew myself! My final work for Scuf was the Scuf Infinity controller of which I am very proud and am happy to leave Scuf on a high note. I am now traveling the world with my family, exploring land by Car and Sea by yacht. Although I am not employed I am continually coming up with new ideas/inventions it will not be long before I come up with another crazy idea!
Thanks to everyone who helped me achieve all my goals and dreams xx

cto and director scufgaming.com

June 2009 – June 2015 (6 years 1 month) | Atlanta USA and Leicester UK

The NEW SCUF HYBRID Controller
