I. INTRODUCTION

Valve Corporation ("Valve") asks the Board to exercise its discretion to join and/or consolidate two *inter partes* review proceedings, involving different claims, different prior art references, different combinations of prior art, different arguments, and different expert testimony. IPR2017-00136, Paper 3 ("Motion"). But Valve is not entitled to a "do over" to challenge claims 1-20 of the '525 Patent on *five* new grounds of unpatentability based on *three* new references. Valve's new petition is nothing more than a "second bite at the apple" and an effort to remedy its prior deficient challenges against the '525 Patent. On June 13, 2016, Ironburg notified Valve that, in addition to the patents
