Forward-Looking Statements

Caution regarding forward-looking information and statements and “Safe-Harbor” statements under the U.S. Private Securities Litigation Reform Act of 1995:

To the extent any statements made in this Form 10-Q contain information that is not historical, these statements are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and may be forward-looking information within the meaning defined under applicable Canadian securities legislation (collectively, “forward-looking statements”).

These forward-looking statements relate to, among other things: our business strategy, business plans and prospects, forecasts and changes thereto, product pipeline, prospective products or product approvals, product development and distribution plans, future performance or results of current and anticipated products, our liquidity and our ability to satisfy our debt maturities as they become due, our ability to reduce debt levels, the impact of our distribution, fulfillment and other third party arrangements, proposed pricing actions, exposure to foreign currency exchange rate changes and interest rate changes, the outcome of contingencies, such as litigation, subpoenas, investigations, reviews, audits and regulatory proceedings, general market conditions, our expectations regarding our financial performance, including revenues, expenses, gross margins and income taxes, our ability to meet the financial and other covenants contained in our Third Amended and Restated Credit and Guaranty Agreement, as amended (the “Credit Agreement”) and indentures, and our impairment assessments, including the assumptions used therein and the results thereof.

Forward-looking statements can generally be identified by the use of words such as “believe”, “anticipate”, “expect”, “intend”, “estimate”, “plan”, “continue”, “will”, “may”, “could”, “would”, “should”, “target”, “potential”, “opportunity”, “tentative”, “positioning”, “designed”, “create”, “predict”, “project”, “forecast”, “seek”, “ongoing”, “increase”, or “upside” and variations or other similar expressions. In addition, any statements that refer to expectations, intentions, projections or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements may not be appropriate for other purposes. Although we have indicated above certain of these statements set out herein, all of the statements in this Form 10-Q that contain forward-looking statements are qualified by these cautionary statements. These statements are based upon the current expectations and beliefs of management. Although we believe that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking statements, including, but not limited to, factors and assumptions regarding the items outlined above. Actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things, the following:

- the expense, timing and outcome of legal and governmental proceedings, investigations and information requests relating to, among other matters, our distribution, marketing, pricing, disclosure and accounting practices (including with respect to our former relationship with Philidor Rx Services, LLC (“Philidor”)), including pending investigations by the U.S. Attorney's Office for the District of Massachusetts, the U.S. Attorney's Office for the Southern District of New York and the State of North Carolina Department of Justice, the pending investigations by the U.S. Securities and Exchange Commission (the “SEC”) of the Company, the request for documents and information received by the Company from the Autorité des marchés financiers (the “AMF”) (the Company's principal securities regulator in Canada), the pending investigation by the California Department of Insurance, a number of pending putative class action litigations in the U.S. and Canada and purported class actions under the federal RICO statute and other claims, investigations or proceedings that may be initiated or that may be asserted;*

- *the impact of the changes in and reorganizations to our business structure, including changes to our operating and reportable segments;*
- *the effectiveness of the measures implemented to remediate the material weaknesses in our internal control over financial reporting that were identified by the Company, our deficient control environment and the contributing factors leading to the misstatement of our previously issued results and the impact such measures may have on the Company and our businesses;*
- *potential additional litigation and regulatory investigations (and any costs, expenses, use of resources, diversion of management time and efforts, liability and damages that may result therefrom), negative publicity and reputational harm on our Company, products and business that may result from the recent public scrutiny of our distribution, marketing, pricing, disclosure and accounting practices and from our former relationship with Philidor, including any claims, proceedings, investigations and liabilities we may face as a result of any alleged wrongdoing by Philidor and/or its management and/or employees;*
- *the current scrutiny of our business practices including with respect to pricing (including the investigations by the U.S. Attorney's Offices for the District of Massachusetts and the Southern District of New York, and the State of North Carolina Department of Justice) and any pricing controls or price adjustments that may be sought or imposed on our products as a result thereof;*
- *pricing decisions that we have implemented, or may in the future, elect to implement, whether as a result of recent scrutiny or otherwise, such as the decision of the Company to take no further price increases on our Nitropress® and Isuprel® products and to implement an enhanced rebate program for such products, our decision on the price of our Siliq™ product, the Patient Access and Pricing Committee's commitment that the average annual price increase for our prescription pharmaceutical products will be set at no greater than single digits and below the 5-year weighted average of the increases within the branded biopharmaceutical industry or any future pricing actions we may take following review by our Patient Access and Pricing Committee (which is responsible for the pricing of our drugs);*
- *legislative or policy efforts, including those that may be introduced and passed by the U.S. Congress, designed to reduce patient out-of-pocket costs for medicines, which could result in new mandatory rebates and discounts or other pricing restrictions, controls or regulations (including mandatory price reductions);*
- *ongoing oversight and review of our products and facilities by regulatory and governmental agencies, including periodic audits by the U.S. Food and Drug Administration (the "FDA"), and the results thereof, such as the inspections by the FDA of the Company's facility in Tampa, Florida, and the results thereof;*
- *any default under the terms of our indentures or Credit Agreement and our ability, if any, to cure or obtain waivers of such default;*
- *any delay in the filing of any future financial statements or other filings and any default under the terms of our indentures or Credit Agreement as a result of such delays;*
- *our substantial debt (and potential additional future indebtedness) and current and future debt service obligations, our ability to reduce our outstanding debt levels in accordance with our stated intention and the resulting impact on our financial condition, cash flows and results of operations;*
- *our ability to meet the financial and other covenants contained in our Credit Agreement, indentures and other current or future debt agreements and the limitations, restrictions and prohibitions such covenants impose or may impose on the way we conduct our business, prohibitions on incurring additional debt if certain financial covenants are not met, limitations on the amount of additional debt we are able to incur where not prohibited, and restrictions on our ability to make certain investments and other restricted payments;*
- *any further downgrade by rating agencies in our credit ratings, which may impact, among other things, our ability to raise debt and the cost of capital for additional debt issuances;*
- *any reductions in, or changes in the assumptions used in, our forecasts for fiscal year 2017 or beyond, which could lead to, among other things, (i) a failure to meet the financial and/or other covenants contained in our Credit Agreement and/or indentures, and/or (ii) impairment in the goodwill associated with certain of our reporting units (including our Salix reporting unit) or impairment charges related to certain of our products (in particular, our Addyi® product) or other intangible assets, which impairments could be material.*
