[57] **ABSTRACT**

A lighting display device simulates a decorated, lighted tree, when illuminated. A plurality, preferably 15 elongated support members are attached at each end to a central shaft. The upper end is hingedly attached to a stationary collar while the lower end is attached to a collar which is axially moveable along the shaft. A hinge is formed in each of the support members at a point spaced away from the ends of the support members. Each of the support members has a generally C-shaped configuration with an open side facing the shaft and a plurality of spaced openings through a surface of each of the support members faces away from the shaft. Each of the openings is adapted to receive a light bulb from a string of lights, and the channel is adapted to receive a plurality of light sockets supporting the lights. When the collar is moved axially along the shaft, each of the support members is moved, from a substantially straight position suitable for storage of the device, to an erect position wherein each of the support members is folded outwardly from the shaft at the hinge point. The axially moveable ends of the support members are secured to the shaft thus forming a conical tree-like structure.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
