1	-000-
2	(Whereupon, the hearing began at 1:01 p.m.)
3	JUDGE ARPIN: I'd like to begin with
4	a roll call. Who do we have on the call for
5	petitioner, please?
6	Ms. Holoubek: Good afternoon Your
7	Honor. This is Michelle Holoubek for petitioner
8	Apple and I'm also joined by my co-counsel Mike
9	Specht.
LO	JUDGE ARPIN: Thank you. And who do
L1	we have on the call for the patent owner?
L 2	MR. KIMBLE: Your Honor, this is
L 3	Justin Kimble and also with me is co-counsel Jeff
L 4	Bragalone and Bill Kennedy.
L 5	JUDGE ARPIN: Thank you.
L 6	Do we have court reporter on the call
L 7	today?
L 8	MR. KIMBLE: We didn't request one
L 9	but we understand the petitioner did.
20	MS. HOLOUBEK: Let me jump in and say
21	that we do have a court reporter on the line.
22	JUDGE ARPIN: Since we have a court
23	reporter on the line I'd like to remind the parties
24	that they should not under any circumstances
25	interrupt another speaking during the call, that

Page 4

will ensure that we have a clear transcript. I would ask also the court reporter not to interrupt any of the speakers unless it is absolutely necessary. I would ask all speakers to identify themselves before they begin speaking so that the court reporter should not have to ask who is speaking.

And this question is directed to the court reporter: When does the court reporter believe that he or she will be able to have the transcript of this call available?

(WHEREUPON, A DISCUSSION WAS HELD OFF THE RECORD)

JUDGE ARPIN: I would ask patent owners, or petitioner since you arranged for the court reporter to please give a copy of the court reporter's transcript to the patent owner before filing it so that any errata can be resolved before the transcript is filed.

Is that clear petitioner?

MS. HOLOUBEK: It is. We'll do that.

JUDGE ARPIN: Patent owner?

MR. KIMBLE: Yes, Your Honor.

JUDGE ARPIN: Okay. The purpose of this call is to discuss the potential consequences of the staff's institute ruling on this proceeding

and, or these proceedings. As you know we have instituted on I believe all claims and all grounds in the IPR2017-321 case, and as a result I do not believe there are any vast consequences to that, or in that proceeding, but I will hear it if either party believes that I'm mistaken there.

With regard to the 319 case, however, petitioner asserted the grounds, 11 grounds against claims 1 through 13, we instituted on claims 1, 2 and 6 through 13 on eight of those grounds so this would appear to implicate SAS. I would also remind the parties that we are about one month out from the statutory deadline for issuing a final written decision in these cases. So we do not have a, well, we have a narrowing window of time in which to take action in these cases and so I would like to begin by asking the parties whether they have conferred with each other over the potential consequences of SAS.

Patent owner.

MR. BRAGALONE: Yes, Your Honor. We have conferred -- this is Jeff Bragalone for patent owner.

JUDGE ARPIN: And was any resolution reached as a result of that conference or any

DOCKET

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
