[57] ABSTRACT

A novel stent compression instrument is used for holding a stent therein during shipping to a hospital and for thereafter crimping the stent onto a balloon catheter. The stent compression instrument includes a body having a central bore; a flexible diaphragm having an axial lumen and mounted within the body central bore, thereby defining a chamber between the body and the diaphragm, and first and second sealing structures for providing seals at opposite ends of the chamber. The diaphragm is formed from a generally tubular, thin wall into which the stent is placed therein and is expandable under a negative pressure condition to expand within the body and compressible under pressure to crimp the stent onto a balloon catheter. Holding structure, which is formed from at least one thickened wall portion along the length of the diaphragm wall, is associated with the diaphragm for holding the stent therewithin and to prevent movement of the stent once positioned therewithin when the diaphragm is subjected to a negative pressure condition. In the preferred embodiment, positioning structure is provided which is formed from a thickened wall portion along the length of the diaphragm wall which is spaced from the holding structure, is also associated with the diaphragm for positioning the stent within the lumen and preventing the further axial movement of the stent relative to the lumen when the stent is placed therein.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
