**Reviews**  
**Amazon.com**

If you need help crunching numbers using Microsoft Excel, *Microsoft Excel 2000 Bible* can take novices or spreadsheet converts to an intermediate level and set regular users well on the road to mastery. So well-organized it could almost be a tutorial, the *Bible* starts with the basics of spreadsheet creation and navigation and moves on to cover weightier topics like sharing work, publishing data on the Web, and analysis using pivot tables.

You won't have any trouble finding everything you need, and when you do, the text and illustrations will show you the steps necessary to set your data to work. Unfortunately, it doesn't go into quite enough detail on the more advanced topics like Visual Basic programming, but for all but the mightiest data-jockeys it has plenty.

The accompanying CD-ROM has lots to keep you busy too: the complete text of the book, over 30 Excel utilities, custom worksheet functions, and even (why not?) a bunch of games. The 32-page Quick Start book will have you mucking about in spreadsheets in short order. As an overall package, the *Microsoft Excel 2000 Bible* is hard to beat. --Rob Lightner

**Synopsis**

Learn how to put Excel to work through a unique Excel QuickStart section, in which readers create an Excel document in the first hour of using the program. The CD-ROM includes an electronic version of the book, Excel add-ins, helpful utilities, examples from the book, Internet Explorer, and more.

**★★★★★ Simply the best!**

Reviewer: [Norman J. Harker \(nharker@ozemail.com.au\)](mailto:nharker@ozemail.com.au) from Richmond, NSW, Australia  
October 8, 1999

No doubt the best reasonably complete guide to Excel 2000. It's well written with plenty of apposite examples and many of these are on the accompanying CD Rom.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
