[57] **ABSTRACT**

An MPEG decoder system and method for performing video decoding or decompression which includes a unified memory for multiple functions according to the present invention. The video decoding system includes transport logic, a system controller, and MPEG decoder logic. The video decoding system of the present invention includes a single unified memory which stores code and data for the transport, system controller and MPEG decoder functions. The single unified memory is preferably a 16 Mbit memory. The MPEG decoder logic includes a memory controller which couples to the single unified memory, and each of the transport logic, system controller and MPEG decoder logic access the single unified memory through the memory controller. The video decoding system implements various frame memory saving schemes, such as compression or dynamic allocation, to more efficiently use the memory. In one embodiment, the memory is not required to store reconstructed frame data during B-frame reconstruction, thus considerably reducing the required amount of memory for this function. Alternatively, the memory is only required to store a portion of the reconstructed frame data. In addition, these savings in memory allow portions of the memory to also be used for transport and system controller functions. The present invention thus provides a video decoding system with reduced memory requirements.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
