# SHIPPABLE PRODUCTS CATALOG

DIGITAL EQUIPMENT CORPORATION

October 1992
Revision 18.0

TA008-10-92

**About the Catalog:**

**The Short Version Catalog lists all the products contained in the full version of the TRI/+ Shippables Product Catalog according to interconnect.  The Full Version Catalog organizes products in categories and contains distributors' addresses, and telephone numbers.**

**Regarding vendors' information in this catalog:**

The product information in this catalog was supplied by the vendors, and Digital has made minor changes to it to suit the catalog's format. The information herein can change without notice and Digital is not responsible for its accuracy.

Customers may want to obtain references, documentation, and/or demonstrations before purchasing these products, because mention of non-Digital products and/or services is for informational purposes only and constitutes neither an endorsement nor a recommendation. Digital assumes no responsibility with regard to the selection, performance, or use of the products.  All understandings, agreements, or warranties, if any, take place  directly between the vendors and the prospective users.

Digital does not assume any liability for incidental or consequential damages arising out of the application or use of any product or services described in this catalog. Neither does this information convey any license or rights.  This disclaimer of warranty is in lieu of all warranties whether expressed, implied, or statutory, including implied warranties of  merchantability or fitness for a  particular purpose.

**Regarding FS-numbers for the products:**

FS-numbers (Digital Field Service) assigned to products in this catalog indicate that Digital's U.S. Services has **at minimum started planning service support for those products in the U.S.A.** For customer service status in countries other than the U.S., contact your local Digital Service representative.

# TRI/+ Program
## Third (TRI) Parties with ADD-On Products for RISC/UNIX<sup>tm</sup> Platforms

This document lists hardware products provided by third party vendors that you can add on to your DECstation/DECsystem as options. Using these add-on products and the applications in this catalog, total worksystem solutions for many market applications are now possible. Contact a vendor directly for more information about a product or to purchase it.

Digital's TRI/+ Program provides technical and marketing support worldwide to third-party vendors using the SCSI, TURBOchannel, VME, ACCESS.bus, and Futurebus+ interconnects to develop add-on products  for open systems. Use these numbers to directly contact the program office.

This catalog is updated on line the fourth Monday of each month.  Digital customers can ask their sales and sales support representative for updates.  Digital people should call or write TRI/+ for the on-line address to copy the catalog.
