UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

K/S HIMPP

Petitioner

v.

III Holdings 4 LLC

Patent Owner.

Case IPR2017-00782

Patent No. 8,654,999

PETITIONER'S OPPOSITION TO
PATENT OWNER'S MOTION TO EXCLUDE

Petitioner's Opposition to Patent Owner's Motion to Exclude

I. INTRODUCTION

Patent Owner's Motion to Exclude Exhibits 1109, 1111, and 1112 should be denied for at least the reasons set forth herein. In addition, Exhibit 1115 should be admitted for consideration in this proceeding as timely-served and responsive supplemental evidence.

II. THE BOARD SHOULD DENY THE MOTION TO EXCLUDE EXHIBIT 1109 AND SHOULD ADMIT EXHIBIT 1115

Patent Owner's Motion to Exclude Exhibit 1109 should be denied because— although Patent Owner fails to acknowledge the fact in its Motion to Exclude— Petitioner timely served supplemental evidence pursuant to 37 C.F.R. §42.64(b)(2) on Patent Owner curing its objections to admissibility.

For evidence other than deposition evidence, first an “objection must identify the grounds for the objection with sufficient particularity to allow correction in the form of supplemental evidence,” then, “[t]he party relying on evidence to which an objection is timely served may respond to the objection by serving supplemental evidence within ten business days of service of the objection.” 37 C.F.R. §42.64(b)(2). Patent Owner filed its Objection to Exhibit 1109 on August 10, 2017, specifying that “Petitioner has not provide [sic] a translation of the foreign language document in accordance with 37 C.F.R. § 42.63(b) and 37 C.F.R. § 42.2, as further specified in 37 C.F.R. § 1.68 (affidavit) and 28 U.S.C. § 1746 (declaration).” Paper 10, 2.

Petitioner's Opposition to Patent Owner's Motion to Exclude

In response, Petitioner timely served supplemental evidence on Patent Owner on August 24, 2017 curing those objections. *See*, Exhibit 1115, now filed with this Opposition,¹ and Exhibit 1118 (Exhibit 1115 service email to counsel for Patent Owner).

Exhibit 1115, in accordance with 37 C.F.R. § 42.63(b), includes “a translation of the document into English and an affidavit attesting to the accuracy of the translation.” Ex. 1115, 10. Pursuant to 37 C.F.R. § 42.2, an “[a]ffidavit means affidavit *or* declaration under § 1.68 of this chapter. A transcript of an *ex parte* deposition or a declaration under 28 U.S.C. 1746 may be used as an affidavit.” (emphasis added).

Ex. 1115 satisfies the requirements of 37 C.F.R. § 1.68. Specifically, the declarant in Ex. 1115: (i) is on the same document; (ii) acknowledges that willful false statements and the like are punishable by fine or imprisonment, or both (18

¹ *See Activision Blizzard, Inc. v. Acceleration Bay, LLC*, Case IPR2015-01951, slip op. at 6–7 (PTAB May 4, 2016) (explaining that authorization to file previously-served supplemental evidence is not required when Patent Owner has filed a motion to exclude and Petitioner is filing an opposition to the motion to exclude to explain how the supplemental evidence cures the objections to admissibility).

Petitioner's Opposition to Patent Owner's Motion to Exclude U.S.C. 1001); and (iii) sets forth in the body of the declaration that all statements made of the declarant's own knowledge are true and that all statements made on information and belief are believed to be true. Ex. 1115, 10; 37 C.F.R. § 1.68. Accordingly, Ex. 1115—which was timely served on Patent Owner to cure the evidentiary objections filed against Ex. 1109—satisfies all requirements of 37 C.F.R. § 42.63(b) and 37 C.F.R. § 42.2, as further specified in 37 C.F.R. § 1.68. *See, e.g., Becton, Dickinson and Company v. B. Braun Melsungen AG*, Case IPR2017-01588, slip op. at 7-8 (PTAB Dec. 21, 2017) (distinguishing between a declaration *or* an affidavit, as required by 37 C.F.R. § 42.2, when evaluating the sufficiency of an affidavit attesting to the accuracy of a translation).

Patent Owner's present Motion to Exclude identifies the same objections against Exhibit 1109 that were filed in its original objections, but neither addresses Exhibit 1115 at all, nor even alleges that Exhibit 1115 is insufficient in curing those original objections. As a result, Patent Owner's Motion should be denied and Exhibit 1115—which sufficiently cures the objections raised by Patent Owner and was timely served—should be admitted for consideration in this proceeding.

III. THE BOARD SHOULD DENY THE MOTION TO EXCLUDE EXHIBITS 1111 AND 1112

Patent Owner's Motion to Exclude Exhibits 1111 and 1112 should be denied as moot because Exhibits 1111 and 1112 are only used by Dr. Atlas in his Declaration as support for his statements regarding parameter settings and how

Petitioner's Opposition to Patent Owner's Motion to Exclude
they are set. Patent Owner has not challenged the accuracy of these statements by
Dr. Atlas and the exhibits are not part of the grounds of unpatentability instituted
for *inter partes* review by the Board.

Dated: April 3, 2018

Respectfully submitted,

K/S HIMPP, Petitioner

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
