**COMMERCIAL PRODUCT TECHNICAL SUPPORT**

**ASTELIN NASAL SPRAY**

| <b>Issue/Program</b>                          | <b>Priority</b> | <b>Critical Path</b>      | <b>Timing</b> | <b>Manager<sup>1</sup></b> | <b>Status/Comments</b>   |
|---|-----------------|---------------------------|---------------|----------------------------|--|
| Qualify 34.5 mL V-bottom bottle               | High            | Launch of V-Bottom Bottle | Q4/FY03       | JH/ADD/CY                  | Task Force assembled to investigate implementation by Spring 03. Additional data from Regulatory reviewed and summarized.  |
| Qualify Marlex 5502BN Resin Stability program | High            | Maintain Component Supply | Q3/FY03       | CY/ML                      | Studies initiated to qualify transfer. Additional samples (4.5 months) particulate testing. Results are pending. The additional data is needed to complete analysis. |
| Valois VP3 Pump – Exclusive Supply Contract   | Medium          | Brand Protection          |               | ADD                        | Discuss exclusive pump sales agreement limit potential use by future generic. Date 11/15/02 at request of SA   |

**DORAL TABLETS**

|  |        |                                   |         |       |  |
|--|--------|-----------------------------------|---------|-------|--|
| Qualify Decatur to manufacture Doral Tablets | High   | Maintain Commercial Tablet Supply | Q4/FY03 | VP/GD | Inter-departmental review of M... in recommendation to continue... Three timelines are available b... commitment to any of these. C... PMRS for development and ma... supply. Request for complianc... |
| Qualification of new drug substance supplier | Medium | Maintain Drug Substance Supply    | Q3/FY04 | HM/VP | Tateyama Kasei and FIS to be quazepam drug substance. De... quazepam from FIS. Samples... were not micronized. FIS will... micronization and activation of... from TK for experimental work...         |

## COMMERCIAL PRODUCT TECHNICAL SUPPORT (continued)

### FELBATOL SUSPENSION

| Issue/Program  | Priority | Critical Path                                | Timing | Manager | Status/Comments   |
|--|----------|--|--------|---------|---|
| Qualify Micron Technologies as approved milling site | High     | Maintain Supply of Micronized Drug Substance | Q2     | GD/VP   | FDA approved Micron Technology containing three month stability second batch was approved on milled felbamate are currently 2C0805 for particle size and 2B foreign material. |

### SOMA 350

|   |          |                                       |          |              |  |
|---|----------|---------------------------------------|----------|--------------|--|
| Transfer Manufacturing Process to Decatur<br>Identify critical process parameters | Critical | Maintain Commercial Supply of Tablets | On-going | WR/HM/<br>JH | Work with Ray Chen to develop that will be used to identify critical manufacturing process for SOMA protocol has been received for |
| Validate specificity for USP assay  | High     | Response to FDA Inspection            | Q3/FY03  | HM           | Work initiated in response to FDA Depen and SOMA both completed been issued by Magellan.   |

### SOMA COMPOUND

|                                    |      |                            |         |    |  |
|------------------------------------|------|----------------------------|---------|----|--|
| Validate specificity for USP assay | High | Response to FDA Inspection | Q3/FY03 | HM | Work initiated in response to FDA quotations from Magellan submitted. Estimated completion date – Mid October cannot achieve the salicylic acid in the USP. Investigations are under |
|------------------------------------|------|----------------------------|---------|----|--|

### SOMA COMPOUND W/CODEINE

|                                    |      |                            |         |    |  |
|------------------------------------|------|----------------------------|---------|----|--|
| Validate specificity for USP assay | High | Response to FDA Inspection | Q3/FY03 | HM | Work initiated in response to FDA quotations from Magellan submitted. Estimated completion – Mid October cannot achieve the salicylic acid retention USP. Investigations are under |

## PRODUCT DEVELOPMENT

### ASTELIN NASAL SPRAY

| Issue/Program                                     | Priority | Critical Path     | Timing   | Manager | Status/Comments   |
|---|----------|-------------------|----------|---------|---|
| Astelin Double-Strength – Formulation Development | High     | Taste Improvement | On-going | GD/VP   | Several formulations at higher and/or higher viscosity have been tested for 6 month stability. Five formulations are currently at second level of screening. Xemplar Pharmaceutical identified Magellan for spray testing. CD is on hold pending evaluation of final formulation. |
| Astelin Double-Strength – Proprietary pump design | Medium   | Brand Protection  |          | ADD     | Valois has been contacted concerning design of a pump for reformulation. Design is scheduled for 11/15/02 at request of Valois.   |

### ASTELIN/STEROID COMBINATION PRODUCT

|   |     |  |         |                     |  |
|---|-----|--|---------|---------------------|--|
| New Nasal Solution Product<br>Azelastine HCl and an<br>Approved Steroid | Low | Extension Product for Lifecycle<br>Maintenance | On Hold | ADD/VP/<br>GD/JH/JG | Project on hold based on evaluation<br>analysis of success potential project |
|---|-----|--|---------|---------------------|--|

### FLUOROFELBAMATE

|   |      |   |         |       |   |
|---|------|---|---------|-------|---|
| Develop Fluorofelbamate for<br>IND          | High | Demonstration of<br>Fluorofelbamate Safety Profile                      | Q2/FY03 | HM/WH | Developing pre-clinical program<br>"Go" for Phase I Study Fall/Winter   |
| Fluorofelbamate Drug<br>Substance Synthesis | High | Drug Supply for Tox Studies<br>and Development of<br>Commercial Process | Q2/FY03 | HM/WH | The preparation fluorofelbamate<br>preclinical toxicity study (ca. 4.5 mg/kg)<br>and the material has been tested at<br>MedPointe. The Certificates of<br>analysis for the first three<br>batches of the fluorofelbamate<br>have been issued. Quotation approved for<br>supply (2 Kg) of drug substance<br>supply targeted for completion<br>of synthesis. Validation of methyl carbamate<br>release. |
| cGMP Preparation of<br>Fluorofelbamate      | High | Phase I Clinical Study  | Q2/FY03 | HM/WH | F-diol, the penultimate of fluorofelbamate<br>has been prepared in seven batches<br>and analyzed by the analytical division for certificate   |

## PRODUCT DEVELOPMENT(continued)

### FLUOROFELBAMATE (cont.)

| Issue/Program                             | Priority | Critical Path               | Timing  | Manager  | Status/Comments   |
|---|----------|-----------------------------|---------|----------|---|
| Impurities required for Tox Studies       | High     | Drug Supply for Tox Studies | Q2/FY03 | HM/WH    | Bis-F-carbonate dimers isolated from drug substance and those derived from impurities were compared by proton NMR. Experiments indicated that the dimers were not present. Currently, the study is focused on the analysis of 15g of the material to be used.   |
| F-Diol Analysis                           | High     |                             |         | HM/WH    | HPLC analytical method of F-diol was developed which can successfully separate H-diol from a large amount of H-diol in F-diol. When the method is used, it will be used in F-diol analysis for the cGMP campaign of fluorofelbamate.  |
| Analytical Methods Polymorph Screen       | High     |                             | Q4/FY03 | HM/WH    | Six different organic solvents and their combinations have been screened for polymorph formation. A preferred orientation was observed (preferred orientation) was observed. The preferred orientation was prepared by fast evaporation of the solvent. The result will be confirmed by repeating the experiment. Calculating the XRPD powder pattern. A single crystal of fluorofelbamate was obtained from an aqueous solution and crystallographic data were collected. The complete structure will be available soon. |
| Therimmune Pilot PK Studies               | High     |                             | Q3/FY03 | HM/BR/WH | Sample of fluorofelbamate provided for pilot PK studies in rodent to determine PK parameters. Protocols for dosing solution developed and approved. PK plasma methods developed and approved.   |
| Phase 1 Clinical Trial and IND Submission |          |                             |         | HM/WH/ML | A detailed timeline for Phase 1 clinical trial submission is being developed. Therimmune and IT to establish electronic documentation exchange.   |

Update

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
