**PATENT OWNER'S OPPOSITION TO PETITIONER'S MOTION FOR  
JOINDER**

## I. INTRODUCTION

Patent Owner, Godo Kaisha IP Bridge 1 (“IP Bridge”) submits this Opposition To Petitioner’s Motion For Joinder in response to Petitioner GlobalFoundries, U.S. Inc.’s (“Global U.S.”) Motion for Joinder (Paper 2, “Mot.”) in IPR2017-00880.<sup>1</sup> Global U.S. seeks to join IPR2017-00880 with IPR2016-01376, which was instituted on January 18, 2017. This Opposition To Petitioner’s Motion For Joinder is timely filed within one month of February 13, 2017, the date Petitioner served the Petition and Motion for Joinder on Patent Owner.

## II. ARGUMENT

If the Board were to grant the Motion for Joinder without certain conditions placed on Global U.S., Patent Owner would be prejudiced. Global U.S.’s proposal “to remain in a circumscribed ‘understudy’ role without a separate opportunity to actively participate,” (Mot. at 5) should be further limited. Global U.S. should be

---

<sup>1</sup> Petitioner has stated that IPR2017-00880 will be withdrawn, but has failed to do so. *GlobalFoundries U.S. Inc. v. Godo Kaisha IP Bridge 1*, IPR2017-00921, Petition (Paper 2) at 60, fn13. Because the Petition in IPR2017-00921 indicates that at least GlobalFoundries, Inc. is also a real party-in-interest (*id.* at 60), the instant petition in IPR2017-00880 should be denied institution at least for failure to name GlobalFoundries, Inc. as an RPI. 37 C.F.R. §42.8.

required to further agree that it will not file additional written submissions, pose questions at depositions, or argue at oral hearing without the prior permission of the Board, rather than permission of TSMC as Global U.S. proposes. Requiring permission from only TSMC would make it very easy for Global U.S. to take an active role, thereby circumventing its agreement to remain in an understudy role “without a separate opportunity to actively participate.” Moreover, Global U.S. stated: “Only in the event that TSMC settles will Global seek to become active in the joined IPR.” Mot. at 5.

Furthermore, Global U.S. should be required to agree to abide by the following conditions which are consistent with its proposal:

1. Global U.S. agrees to proceed based solely on the arguments and evidence presented and maintained by TSMC in IPR2016-01376.
2. Global U.S. consents to being added to the case caption of IPR2016-01376 as a Petitioner without any active participation or involvement that is separate from TSMC.
3. Global U.S. agrees to remain in a circumscribed “understudy” role in IPR2016-01376 without any right to separate briefing or discovery. Global U.S. will not file additional written submissions, not pose questions at depositions and not argue at oral hearing without the prior authorization of the Board.

4. TSMC will conduct cross-examination and other discovery on behalf of TSMC and Global U.S., and Patent Owner is not required to provide separate discovery responses or additional deposition time as a result of any consolidation.
5. Global U.S. will seek authorization from the Board to become active in IPR2016-01376 only in the event that TSMC settles.
6. Global U.S. acknowledges that the estoppel provisions of 35 U.S.C. § 315(e) will be applicable to it even if it remains in a circumscribed “understudy” role.

In an attempt to limit the prejudice to Patent Owner, Global U.S. should be required to agree to abide by the above conditions before permitting it to join IPR2016-01376.

### III. CONCLUSION

For the foregoing reasons, Global U.S.'s motion for joinder should be denied unless Global U.S. will abide by the above conditions.

Respectfully submitted by:

Dated: March 13, 2017

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
