Page 2  1 APPEARANCES	Page 4 1 JOSEPH B. ZICHERMAN - BY MR. BILLAH
2 Appearing on Behalf of Petitioner:	2 administer the oath, nor am I related to any party in
3 Zaed M. Billah, Esq.	3 this action, nor am I financially interested in the
4 Hunton Andrews Kurth LLP	4 outcome.
5 One Broadway	5 Counsel are present in the room, and
6 New York, New York 10004	6 everyone attending will now place their appearances
7 zbillah@HuntonAK.com	7 and affiliations for the record. If there are any
8	8 objections to the proceeding, please state them at the
9 Appearing on Behalf of Patent Owner:	9 time of your appearance.
10 Jennifer Meredith, Esq.	10 MR. BILLAH: Zaed Billah from Hunton,
11 Meredith & Keyhani	11 Andrews, Kurth representing Petitioner, Kawasaki
12 205 Main Street	12 Railcar, Inc.
13 East Aurora, New York 14052	13 MS. MEREDITH: Jennifer Meredith,
14 jmeredith@meredithkeyhani.com	14 Meredith & Keyhani, representing the Patent Owner,
15	15 Scott Blair.
16 Appearing as the Videographer:	16 THE VIDEOGRAPHER: Please swear in our
17 Ken Williamson	17 witness.
18	18 JOSEPH B. ZICHERMAN,
19	called herein as a witness, first being sworn,
20	20 testified as follows:
21	21 EXAMINATION BY MR. BILLAH:
22	Q. Can you please state your name and
23	23 residential address for the record?
24	A. Joseph B. Zicherman. 2390 Eunice Street,
25	25 Berkeley, California.

Zicherman,  17 taken by the counsel for the petitioner in the matter  18 of Kawasaki Railcar, Inc., Petitioner versus Scott  19 Blair, Patent Owner. The case is filed in the United  20 States Patent and Trademark Office before the Patent  21 Trial and Appeal Board, IPR2017-01036. The deposition  22 is being held at 205 East Main Street, East Aurora,	Page 5  1 JOSEPH B. ZICHERMAN - BY MR. BILLAH  2 Q. Who is your current employer?  3 A. Berkeley Engineering and Research.  4 Q. And what city is that located in?  5 A. Berkeley, California.  6 Q. And what is your current title?  7 A. Senior fire safety consultant.  8 Q. And how long have you had that title?  9 A. I've worked with Berkeley Engineering and  10 Research for about two years now.  11 Q. And at your time at Berkeley Engineering  12 and Research your title has always remained the same?  13 A. Yes.  14 Q. Dr. Zicherman, you were deposed a few  15 weeks ago, so I'm sure you're familiar with the  16 process, but I'll just go over a few ground rules.  17 Most important thing we'll try to do is  18 not talk over each other. It's very difficult for the  19 court reporter to transcribe two people at once.  20 I also ask that you try to answer in words  21 rather than a shrug of the shoulders or head nods,  22 that kind of thing.

Page 8 1 JOSEPH B. ZICHERMAN - BY MR. BILLAH 1 JOSEPH B. ZICHERMAN - BY MR. BILLAH 2 specifically instructs you not to answer a question, 2 deposition? 3 you still need to answer the question. Do you A. Yesterday evening probably an hour. 4 understand that? 4 Q. Did you talk to Mr. Long in preparation A. Yes. 5 for today's deposition? O. If you need a break -- we'll take breaks A. No. 7 throughout the day, but if you need a break at any 7 Q. Have you ever spoken to Mr. Long? 8 time, feel free to ask for one, and we'll take one. I Q. Have you ever had any communications with 9 just ask that if there's a question pending, that you 10 Mr. Long? 10 answer the question first, and then we can take a 11 A. No. 12 Is there any reason you cannot testify 12 Q. Is there anybody else you spoke to to 13 truthfully today? 13 prepare for this deposition? A. No. 14 14 A. No. 15 Q. Are you on any medication that would 15 (The following exhibits were marked for 16 affect your ability to answer questions? 16 identification: EXH Numbers 1, 2 and 3.) 17 A. No. 17 MR. BILLAH: For the record, Exhibit 1 is 18 Q. How did you prepare for today's 18 a copy of United States Patent Number 6,700,602, also 19 deposition? 19 marked as Kawasaki 1001. 20 A. I reviewed my declaration, I reviewed my 20 Exhibit 2 is the Supplemental Expert 21 deposition of February 28th, and I reviewed some of 21 Declaration of Jack R. Long, also marked as Exhibit 22 the relevant documents in the case in my file. 22 2006 in IPR2017-01306. 23 23 Q. And what documents were those? Exhibit 3 is the Supplemental Expert 24 A. Those were the patents cited as 24 Declaration of Joseph B. Zicherman, also marked as 25 references. 25 Exhibit 2009 in IPR2017-01036. Page 7 Page 9 JOSEPH B. ZICHERMAN - BY MR. BILLAH JOSEPH B. ZICHERMAN - BY MR. BILLAH 1 1 2 2 Q. Dr. Zicherman, could you please look at Q. Do you remember the names? 3 A. I don't. I can give you the names. 3 Exhibit 2, please? What is this document? A. This is -- Exhibit 2 is a Supplemental Q. Based on what you have in front of you? 5 A. Based on my supplemental declaration. 5 Expert Declaration of Jack R. Long. Q. Have you ever seen this document? 6 Q. What documents do you have in front of 7 7 you? A. I have. 8 Q. When is the last time you've seen this 8 A. I have my deposition of February 28th and 9 document? 9 my supplemental declaration. 10 A. I saw this document roughly a week ago for 10 Q. And in any of the papers you have with you 11 today, are there any notations on those documents? 11 the first time. 12 A. No. 12 Q. And is there a particular reason you 13 Q. Can I look at that, please? 13 reviewed this document a week ago? 14 A. Sure. 14 A. I was provided with this document by my 15 Q. Did you speak to your counsel in 15 clients, and they asked me to review it. 16 preparation for this deposition? 16 Q. And is it correct that you reviewed 17 Exhibit 2 in preparation to draft your own 17 A. I did. 18 declaration, which is Exhibit 3? 18 Q. And when was that? A. I spoke with Ms. Meredith on Wednesday in 19 A. Yes. 20 a phone conversation, and I met with she and her 20 Q. And looking at Exhibit 3 side by side with 21 partner last evening. 21 Exhibit 2, what is the relationship between Exhibit 2 22 and Exhibit 3? 22 Q. And her partner being Mr. Keyhani? 23 A. Exhibit -- I'm sorry. Did I cut you off? 23 A. Correct.

24

25

A. Exhibit 3 is a copy of my own declaration,

Q. Approximately how much time did you spend

25 speaking with Ms. Meredith and Mr. Keyhani for this

1

#### JOSEPH B. ZICHERMAN - BY MR. BILLAH

- 2 which was prepared after reviewing Mr. Long's
- 3 deposition. And as I understand it, the circumstances
- 4 are that Mr. Long has been quite ill and unable to
- 5 participate.

1

- And in as much as I testified in my last
- 7 deposition in detail about design issues, I was asked
- 8 to look at Mr. Long's opinions and see if they were
- 9 consistent with my own; and indeed they were, by and 9 prevent -- excuse me. They presented a potential 10 large.
- 11 Q. And when you say "by and large," what
- 12 about Mr. Long's opinions and your opinions is not
- 13 consistent?
- 14 A. Well, he has some information about how
- 15 subways are tunneled and so on, which I didn't feel
- 16 were particularly relevant to a declaration with my
- 17 signature.
- 18 Q. And can you point out the sections you're
- 19 referring to in Mr. Long's declaration?
- 20 A. In Long they are sections 8 and 9.
- 21 Q. And I just want to seek a clarification in
- 22 your testimony. You said (as read): Exhibit 3 is a
- 23 copy of my own declaration, which was prepared after 23 clarify that?
- 24 reviewing Mr. Long's deposition.
- 25 When you said "Mr. Long's deposition," did

#### JOSEPH B. ZICHERMAN - BY MR. BILLAH

Page 12

- 2 A. The problem refers to the installation of
- 3 information monitors in a subway car.
- Q. And what are the problems with the 5 installation of information monitors in a subway car?
- A. At the time that this patent was written,
- 7 monitors were of larger size, they were electrically
- 8 powered and created a potential fire hazard. They
- 10 source of injury to passengers if they projected out
- 11 into a railcar. Those were the primary problems.
- 12 And another problem which had not been 13 addressed was the simple and -- actually, not simple,
- 14 but the problem of mounting the monitor itself within
- 15 the confines or the -- of the actual car shell.
- 16 Q. And your testimony says that the problem
- 17 posed to the inventor. So was the fire hazard problem
- 18 posed to the inventor?
- 19 A. That was an engineering problem that the
- 20 inventor would have to deal with, yes.
  - Q. How was it posed to the inventor?
- 22 A. How was it posed to the inventor? Can you
- 24 Q. Did a person pose that problem to the 25 inventor?

Page 11

21

1

2

### JOSEPH B. ZICHERMAN - BY MR. BILLAH

- 2 you mean declaration?
- 3 A. I did. I misspoke.
- 4 Q. Did you ever review Mr. Long's deposition?
- 5 A. No.

1

- Q. The removal of sections 8 and 9 in making
- 7 your declaration in comparison to Mr. Long's
- 8 declaration, did that have anything to do with your
- 9 lack of expertise in any particular area?
- 10 A. No.
- 11 Q. Can you please turn to paragraph 14 in
- 12 your declaration, Exhibit 3?
- 13 A. Paragraph 14, page 4?
- 14 Q. Correct.
- 15 A. Yes.
- Q. The second sentence of paragraph 14 says
- 17 (as read): The problem posed to the inventor at the
- 18 time of the invention was particularly challenging, as
- 19 subway cars have challenges that do not exist in
- 20 residential environments or even buses or Amtrak
- 21 trains.
- 22 Do you see that?
- 23 A. Yes.
- 24 Q. The word "problem," the second word in the
- 25 sentence there, what problem -- what is the problem?

Page 13 JOSEPH B. ZICHERMAN - BY MR. BILLAH

- A. Well, there was a regulatory issue, and
- 3 there was an overarching issue of fire safety. And
- 4 these are electrical devices, and they have a
- 5 potential to fail. And if they were to fail and
- 6 initiate a fire, smoke and heat and toxic gas and
- 7 particulates would put subway riders at risk.
- 8 Q. And what regulatory body are you referring 9 to?
- 10 A. Well, the regulatory body in question was
- 11 actually the Federal Transit Agency, but the Federal
- 12 Transit Agency basically defaulted to the activities
- 13 of the Federal Railway Administration, who had
- 14 prepared a series of fire safety guidelines that are
- 15 codified in CFR-238.
- Q. How do you know what the inventor was 17 considering at the time of his invention for this
- 18 patent? 19 A. How do I know? I guess I can't -- it
- 20 seems obscure.
- 21 Q. You're saying the problem was posed to the 22 inventor. There's nothing in the patent about fire
- 23 hazards, is there?
- 24 A. There's nothing per se.
  - Q. So how do you know the inventor had any

Page 14 Page 16 JOSEPH B. ZICHERMAN - BY MR. BILLAH 1 1 JOSEPH B. ZICHERMAN - BY MR. BILLAH 2 considerations for fire hazards? 2 at places containing insulation. A. Because the inventor either knew or should Do you see that? 4 have known that there were fire hazards or that 4 A. Yes. 5 there's a risk of fire on a rail vehicle. And if a Q. My question to you is in the 1995 to 1997 6 rail vehicle operates underground, the hazard 6 time frame a subway car was normally constructed such 7 resulting from that risk is greater than if it's 7 that it had a cavity in between its interior wall and 8 operating above ground. 8 its exterior shell; correct? Q. Now, you don't know what the inventor A. Yes. 10 knew; is that correct? 10 Q. Do any subway systems of today not have MS. MEREDITH: Objection. 11 that cavity space? 12 A. Yeah, I don't know what the inventor knew. 12 A. I can't speak for all such vehicles. Most 13 Q. Is there anything in this patent that 13 do have such a space. 14 discusses injury to passengers, the patent being 14 Q. And have you ever seen a subway car 15 Exhibit 1? 15 without such a space? 16 A. Give me a minute to review it? 16 A. Probably the older London underground cars 17 O. Yes. 17 do not have such a space. 18 MS. MEREDITH: Objection. The document 18 Q. And when you say, "London underground 19 speaks for itself. 19 cars," does that mean that those cars operate in 20 A. I'm not sure that safety or fire are 20 London, England? 21 discussed in the patent. 21 A. Yes. 22 Q. When you say, "I'm not sure," does that 22 Q. And in what time frame are you referring 23 mean you haven't read the whole patent? 23 to with those London underground cars? 24 A. I haven't focused on whether or not that 24 A. Operating or being built? 25 was in the patent in my readings of the patent. 25 Q. Let's start with being built. Page 15 Page 17 JOSEPH B. ZICHERMAN - BY MR. BILLAH 1 JOSEPH B. ZICHERMAN - BY MR. BILLAH 1 2 Q. Can you -- if you're not sure, what would 2 A. Well, they're still operating, and they 3 make you sure? 3 probably -- they may well be current cars as well, 4 A. Taking longer and looking at it some more. 4 because those cars have a construction with a highly 5 Q. I would like an answer to my question, 5 curved roof to fit the very old tunnels that they run 6 sir. Is there anything in the patent that discusses 6 in. 7 7 injury to passengers? Q. Can you turn to column 4 of the patent, 8 A. Okay. 8 please? 9 MS. MEREDITH: Objection again. A. Yeah. 10 (There was a pause in the proceeding.) 10 Q. Line -- down at line 57 of column 4 it A. I don't believe it discusses fire or fire 11 starts by saying (as read): A typical subway car 10, 11 12 danger. 12 as illustrated in Figures 1A and 1B. 13 Do you see that? Q. Or injury to passengers; correct? 13 14 14 A. Or injury to passengers, with the A. Yes. 15 exception that it talks about the monitors being 15 Q. If you look at Figure 1A --16 strongly mounted, which would at least acknowledge 16 17 that they need to be strongly mounted. 17 Q. -- my question is do you agree that figure 18 Q. Can you please take a look at the patent, 18 1A depicts a typical subway car in the 1995 to 1997 19 '602 patent, column 3? 19 time frame? 20 A. Okay. 20 A. Well, 1A would certainly represent a plan 21 21 view of a typical car, or could. Q. Column 3, line 55, it reads (as read): A 22 subway car is normally constructed so that it has a 22 Q. And can you turn to column 5? 23 23 cavity wall defined between its outer structural shell A. Pardon? 5? 24 and an inner lining wall; the cavity providing for 24 Q. Column 5, yes, sir. 25 wiring and cables and other mechanical functions and 25 A. Sure. I've got it.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## **Real-Time Litigation Alerts**

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## **Advanced Docket Research**

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## **Analytics At Your Fingertips**

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

### **LAW FIRMS**

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

### **FINANCIAL INSTITUTIONS**

Litigation and bankruptcy checks for companies and debtors.

## **E-DISCOVERY AND LEGAL VENDORS**

Sync your system to PACER to automate legal marketing.
