I. INTRODUCTION

I, Alpaslan Yaman, Ph.D., declare as follows:

1. I am over 18 years of age. I have personal knowledge of the facts stated in this declaration and could testify competently to them if asked to do so.

2. In this proceeding before the U.S. Patent and Trademark Office (“USPTO”), I have been retained by Amneal Pharmaceuticals LLC (“Amneal” or “Petitioner”) as an independent expert consultant. Although I am receiving compensation at my standard consulting rate for the time that I spend on this proceeding, I have no other interest in its result. I also expect to be reimbursed for reasonable expenses incurred in relation to my consulting. My compensation is independent of the opinions rendered or the outcome of this proceeding.

3. I understand that this proceeding involves U.S. Patent No. 8,338,470 (“the ‘470 patent”), Ex. 1001, issued on December 25, 2012, and that the ‘470 patent issued from U.S. Patent Application Serial No. 13/541,524 (“the ‘524 application”), Ex. 1048, filed on July 3, 2012. The ‘524 application is a continuation of U.S. Application No. 13/343,672, Ex. 1008, now U.S. Patent No. 8,242,158 (“the ‘158 patent”), Ex. 1047, and claims priority to the ‘672 application, which was filed on January 4, 2012. Accordingly, the earliest possible effective filing date of the ‘470 patent is January 4, 2012.

4. I have been asked by counsel for Amneal to explain the technical

subject matter of the '470 patent and its background. I have also been asked to explain whether prior art discloses the compositions claimed in the '470 patent. My opinions are set forth below.

5. Generally, the '470 patent disclosure and claims are directed to a premixed pharmaceutical compositions of dexmedetomidine. Ex. 1001, col. 1, l. 66 – col. 2, l. 5. The specification provides suitable containers including glass vials, ampoules, syringes, and plastic flexible containers, such as polyvinyl chloride (PVC), VisIV™, polypropylene and CR3 containers. *Id.* at col. 9, ll. 21-29. The specification also provides numerous suitable concentrations for the premixed concentrations, including the claimed concentration range of between about 0.005 to about 50 µg/mL. *Id.* at col. 7, l. 44 – col. 8, l. 19.

6. It is my opinion that a person of ordinary skill in the art (“POSA”) would have had a reason and the know-how to arrive at the subject matter recited in claims 1-7 by combining the disclosure of the 2010 Precedex label, Ex. 1007, in view of the Palmgren reference, Ex. 1017, with a reasonable expectation of success.

7. Also, it is my opinion that a person of ordinary skill in the art would have had a reason and the know-how to arrive at the subject matter recited in claims 1-7 by considering U.S. Patent No. 6,716,867 (“the ‘867 patent”), Ex. 1006, in view of the 2010 Precedex Label, Ex. 1007, and Palmgren, Ex. 1017.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
