**PATENT OWNER'S RESPONSE TO PETITIONER'S OBJECTIONS TO  
EVIDENCE  
UNDER 37 CFR 42.64(b)(1) and (b)(2)**

Pursuant to 37 C.F.R. § 42.64(b)(1), Petitioner Actavis LLC (“Actavis”) served objections to evidence submitted by Patent Owner Abraxis Bioscience, LLC (“Abraxis”) in support of its Patent Owner Preliminary Response to the Petition for *Inter Partes* Review of U.S. Patent No. 7,820,788, Case IPR2017-01101. Actavis raised general objections to Abraxis’s expert declaration and other evidence without detailing the basis of those objections. Abraxis disagrees with each of Actavis’s objections and submits supplemental evidence pursuant to 37 C.F.R. § 42.64(b)(2).

If Actavis files a motion to exclude any of the evidence, Abraxis reserves the right to respond to Actavis’s motion and objections in detail pursuant to 37 C.F.R. § 42.23. Abraxis also reserves the right to submit supplemental evidence because Actavis’s objections are general and vague so as not to provide proper notice as to the nature of its objections.
